**International Electronic Conference on Sensors and Applications** Francisco Falcone,Stefano Mariani,Francesco Ciucci,Dirk Lehmhus,Thomas B. Messervey,Alberto Vallan,Stefan Bosse,2020-12-29 This Special Issue comprises selected papers from the proceedings of the 5th International Electronic Conference on Sensors and Applications held on 15-30 November 2018 on sciforum.net an online platform for hosting scholarly e conferences and discussion groups. In this 5th edition of the electronic conference contributors were invited to provide papers and presentations from the field of sensors and applications at large resulting in a wide variety of excellent submissions and topic areas. Papers which attracted the most interest on the web or that provided a particularly innovative contribution were selected for publication in this collection. These peer reviewed papers are published with the aim of rapid and wide dissemination of research results, developments and applications. We hope this conference series will grow rapidly in the future and become recognized as a new way and venue by which to electronically present new developments related to the field of sensors and their applications.      *West's Federal Practice Digest* ,2003

**Handbook of Military Psychology** Stephen V. Bowles,Paul T. Bartone,2017-12-05 This expert compendium surveys the current state of military psychology across the branches of service at the clinical research, consulting and organizational levels. Its practical focus examines psychological adjustment pre and post deployment, commonly encountered conditions e.g. substance abuse and the promotion of well-being, sleep, mindfulness and resilience training. Coverage pays particular attention to uses of psychology in selection and assessment of service personnel in specialized positions and training concerns for clinicians and students choosing to work with the military community. Chapters also address topics of particular salience to a socially conscious military including PTSD, sexual harassment and assault, women's and LGBT issues, suicide prevention and professional ethics. Among the specific chapters topics covered: Military deployment psychology, psychologists in the forward environment, Stress and resilience in married military couples, Assessment and selection of high risk operational personnel, processes, procedures and underlying theoretical constructs, Understanding and addressing sexual harassment and sexual assault in the US military, Virtual reality applications for the assessment and treatment of PTSD, Plus international perspectives on military psychology from China, Australia, India and more. Grounding its readers in up to date research and practice, Military Psychology will assist health psychologists, clinical psychologists, psychiatrists and clinical social workers in understanding and providing treatment for military populations, veterans and their families as well as military psychologists in leadership and consulting positions.      **Wrongful**

**Convictions and Forensic Science Errors** John Morgan,2023-03-29 Forensic Science Errors and Wrongful Convictions Case Studies and Root Causes provides a rigorous and detailed examination of two key issues the continuing problem of

wrongful convictions and the role of forensic science in these miscarriages of justice This comprehensive textbook covers the full breadth of the topic It looks at each type of evidence historical factors system issues organizational factors and individual examiners Forensic science errors may arise at any time from crime scene to courtroom Probative evidence may be overlooked at the scene of a crime or the chain of custody may be compromised Police investigators may misuse or ignore forensic evidence A poorly trained examiner may not apply the accepted standards of the discipline or may make unsound interpretations that exceed the limits of generally accepted scientific knowledge In the courtroom the forensic scientist may testify outside the standards of the discipline or fail to present exculpatory results Prosecutors may suppress or mischaracterize evidence and judges may admit testimony that does not conform to rules of evidence All too often the accused will not be afforded an adequate defense especially given the technical complexities of forensic evidence These issues do not arise in a vacuum they result from system issues that are discernable and can be ameliorated Author John Morgan provides a thorough discussion of the policy practice and technical aspects of forensic science errors from a root cause scientific analysis perspective Readers will learn to analyze common issues across cases and jurisdictions perform basic root cause analysis and develop systemic reforms The reader is encouraged to assess cases and issues without regard to preconceived views or prejudicial language As such the book reinforces the need to obtain a clear understanding of errors to properly develop a set of effective scientific procedural and policy reforms to reduce wrongful convictions and improve forensic integrity and reliability Written in a format and style accessible to a broad audience *Forensic Science Errors and Wrongful Convictions* presents a thorough analysis across all of these issues supported by detailed case studies and a clear understanding of the scientific basis of the forensic disciplines
