The Voice Catchers Joseph Turow,2021-05-18 Your voice as biometric data and how marketers are using it to manipulate you Only three decades ago it was inconceivable that virtually entire populations would be carrying around wireless phones wherever they went or that peoples exact locations could be tracked by those devices We now take both for granted Even just a decade ago the idea that individuals voices could be used to identify and draw inferences about them as they shopped or interacted with retailers seemed like something out of a science

fiction novel Yet a new business sector is emerging to do exactly that The first in depth examination of the voice intelligence industry The Voice Catchers exposes how artificial intelligence is enabling personalized marketing and discrimination through voice analysis Amazon and Google have numerous patents pertaining to voice profiling and even now their smart speakers are extracting and using voice prints for identification and more Customer service centers are already approaching every caller based on what they conclude a caller s voice reveals about that person s emotions sentiments and personality often in real time In fact many scientists believe that a person s weight height age and race not to mention any illnesses they may have can also be identified from the sound of that individual s voice Ultimately not only marketers but also politicians and governments may use voice profiling to infer personal characteristics for selfish interests and not for the benefit of a citizen or of society as a whole Leading communications scholar Joseph Turow places the voice intelligence industry in historical perspective explores its contemporary developments and offers a clarion call for regulating this rising surveillance regime *Fleet's Guide* ,1995 **HISTORY OF THE HOLIDAYS: A Global Guide** Christopher Tolerant,2025-11-17 A riotous painfully honest and wildly entertaining deep dive into humanity s oldest pastime avoiding responsibility by throwing a party History of the Holidays drags you lovingly but with zero mercy through centuries of festivals rituals fire hazards food fights spiritual awakenings and cultural traditions that suspiciously resemble bad decisions with marketing From the explosive chaos of ancient fire festivals to modern celebrations powered by sugar capitalism and questionable judgment this book unpacks how every culture on Earth found creative ways to celebrate survival seasons deities harvests hope and sometimes absolutely nothing at all Armed with razor sharp humor gleeful irreverence and just enough historical accuracy to keep you learning while you laugh the authors take you on a global tour of Legendary celebrations that shaped civilizations Religious holidays that evolved into glitter covered modern spectacles Local festivals that probably shouldn t exist but absolutely do Food based traditions that test the limits of both digestion and dignity Comically chaotic holidays invented out of boredom dares or pure human mayhem Between the jokes the book lands a surprisingly heartfelt truth holidays matter They re proof that people messy dramatic brilliant people will always find reasons to gather laugh feast burn something or throw produce at each other in the streets Equal parts history lesson and comedic roast of the human condition this is the coffee table book you didn t know you needed and won t stop quoting Perfect for fans of irreverent nonfiction trivia lovers holiday obsessives and anyone who believes life is too short not to celebrate absolutely everything **United States Official Postal Guide** ,1886 **The Rate Reference Guide to the U.S. Treasury Market, 1984-1995** Steven R.
