Namibia Space Namibia Space:

Namibia Space Chris Marais, 2012-07-23 Namibia Space takes the reader on a virtual tour of every corner of this haunting and beautiful country. It is packed with glorious full colour photographs and first hand experiences. We come to know the appeal of Namibia for travellers: the history close up, Nature infinite, sand shaped by constant wind, exotic people many of whom have turned their backs on civilisation and still practise their old ways, great herds of animals and there is The Road with its infinite possibilities. Through a remarkable series of photographs and writings we share Chris and Julie's experiences on the Namibian road. Namibia Space shows us their Namibia Award winning photo journalist Chris Marais is well known for his work in Country Life and Sawubona magazines. He has worked on assignment in more than 50 countries and is part of the pack of wanderlust journalists who love nothing better than to travel with a camera and an open mind. Julianne duToit has built an international reputation in the world of environmental journalism. Currently specialising in southern African environmental issues and poverty relief projects, she is also a lifestyle and travel writer who travels throughout the region with her husband Chris. **Namibia Space Science and Technology Policy at a Glance**, 2021

Fictioning Namibia as a Space of Desire Renzo Baas, 2019-03-28 Modern day Namibian history has largely been shaped by three major eras: German colonial rule, South African apartheid occupation and the Liberation Struggle. It was however not only military conquest that laid the cornerstone for the colony but also how the colony was imagined, the dream of this colony. As a tool of discursive worldmaking, literature has played a major role in providing a framework in which to dream Namibia first from outside its borders and then from within. In *Fictioning Namibia as a Space of Desire*, Renzo Baas employs Henri Lefebvre's city/countryside dialectic and reworks it in order to uncover how fictional texts played an integral part in the violent acquisition of a foreign territory. Through the production of myths around whiteness, German and South African authors designed a literary space in which control, destruction and the dehumanisation of African peoples are understood as a natural order, one that is dictated by history and its linear continuation. These European texts are offset by Namibia's first novel by an African offering a counter narrative to the colonial invention that was German South West Africa. **Namibia Space Science and Technology Policy, 2021**, 2021* **Namibia Space** Chris Marais, 2012-07-23 Namibia Space takes the reader on a virtual tour of every corner of this haunting and beautiful country.
