## Narratology And Classics A Practical Guide:

**Narratology and Classics** Irene J. F. de Jong, 2014 *Narratology and the Classics* is the first introduction to narratology that deals with classical narrative in epic historiography biography the ancient novel but also the many narratives inserted in drama or lyric

*Narratology and Classics* Irene J. F. de Jong, 2014 Narrative is an important element in our daily life and the novel is arguably the most popular genre of our times The theory of narrative or narratology which was developed in the 1960s has helped us towards a better understanding of the how and why of narrative This book provides an introduction to narratology that deals specifically with classical narrative epic historiography biography the ancient novel but also the many narratives inserted in drama or lyric

*Handbook of Diachronic Narratology* Peter Hühn, John Pier, Wolf Schmid, 2023-07-24 This handbook brings together 42 contributions by leading narratologists devoted to the study of narrative devices in

European literatures from antiquity to the present Each entry examines the use of a specific narrative device in one or two national literatures across the ages whether in successive or distant periods of time Through the analysis of representative texts in a range of European languages the authors compellingly trace the continuities and evolution of storytelling devices as well as their culture specific manifestations In response to Monika Fludernik's 2003 call for a diachronization of narratology this new handbook complements existing synchronic approaches that tend to be ahistorical in their outlook and departs from postclassical narratologies that often prioritize thematic and ideological concerns A new direction in narrative theory diachronic narratology explores previously overlooked questions from the evolution of free indirect speech from the Middle Ages to the present to how changes in narrative sequence encoded the shift from a sacred to a secular worldview in early modern Romance literatures An invaluable new resource for literary theorists historians comparatists discourse

analysts and linguists **Ambiguity and Narratology** Simon Grund, Robert Kirstein, Julian Wagner, 2024-10-21 As a well known phenomenon in everyday communication ambiguity has increasingly become the subject of interdisciplinary research in recent years However within this context it has been observed that words or expressions situated within the artistic

framework of storytelling have not yet been at the centre of research interest This book aims to bridge this gap by examining the phenomenon of ambiguity from the perspective of narratology understood as a general theory of narration and narrative communication The volume pursues two goals Firstly it seeks to demonstrate that the interdisciplinary combination of linguistics cultural history and narratology enriches the field of literary studies significantly This focus not only highlights how narrative techniques often rely on everyday language conventions but also explores how various textual features

narrative devices or even entire storylines can be affected by phenomena or lead to experiences of ambiguity These ambiguities often serve as poetic strategies that are deliberately set in the communicative process of text and reader to achieve certain narrative goals Secondly ambiguity as a characteristic of narrative communication serves as a linking element across different fictional and factual text types and genres throughout time and cultures The collected essays cover a wide

range of narrative texts from Roman comedy to funerary reliefs from historiographical writings to utopian tales from Goethe's novels to contemporary fantasy literature. In its broad approach the volume thus contributes to the project of diachronic narratology which like the research on ambiguity in literary and cultural studies has recently gained increasing momentum. The combined consideration of ambiguity and narratology not only raises awareness of phenomena of ambiguity in narrative texts but also encourage reflection on the theoretical foundations of narrative particularly on the methods and devices used to describe these ambiguous structures. Overall the volume represents an exploration of a relatively unexplored interdisciplinary field aiming to stimulate further research. *Animal Narratology* Joela Jacobs, 2020-12-15

*Animal Narratology* interrogates what it means to narrate to speak speak for on behalf of and to voice or represent life beyond the human which is in itself as different as insects bears and dogs are from each other and yet more as individual as a single mouse horse or puma. The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of attitude toward and responsibility for the animals that are read and written about thus demonstrating that just as the animal does not exist neither does the human. In their zoopoetic focus the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non human in the first place. Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another's perspective to the degree that such an endeavor is possible. Ultimately the contributions call for a recognition of the many spaces moments and modes in which human lives are entangled with those of animals one of which is located within the creative bounds of storytelling. *Prolepsis in Ancient Greek Narrative*, 2024-12-23

This edited volume offers the first comprehensive study of prolepsis in narratives written in ancient Greek ranging from Homer to the late antique author Colluthus with the inclusion of Second Temple Jewish Literature. Structuralist narratology defines prolepsis as the narration in advance of an event that takes place later in the story. The papers collected in this volume start from this approach but move beyond it by exploring a wide range of new definitions forms and readerly effects of prolepsis. Several contributions draw on postclassical narratological approaches and focus on cognitive aspects of reading narrative virtuality and readerly uncertainty that stems from prolepses. *Orphic Voice(s): A Narratological Commentary on Ovid's Metamorphoses 10.1-11.84* Julian Wagner, 2024-08-26

The book offers an in depth narratological analysis of the Book of Orpheus 10.1-11.84 of Ovid's Metamorphoses. Starting from fundamental aspects of narrative like time space and focalisation the commentary highlights the polyphony of the various narrative levels. The complex and challenging design results from a constant oscillation between the narrator persona of Ovid and the programmatic Orpheus figure which has found a wealth of interpretations. In addition the study places the 10th book in the overall narrative framework of Ovid's Metamorphoses with its density of intertextuality and metanarrativity. **Homer und**

**Vergil im Vergleich** Philipp Weiß, 2017 Der Vergleich mit Homer bestimmt das Bild Vergils in der Literaturgeschichte bis in die Gegenwart Schon in der Antike waren Ilias und Odyssee die wichtigsten Bezugspunkte wenn es darum ging Vergils dichterische Leistung zu taxieren Dabei reichte das Spektrum vom simplen Vorwurf des Homerplagiats bis hin zur Anerkennung künstlerischer Eigenständigkeit beim Imitator Vergil der an die Stelle homerischer simplicitas den Gedanken der ars also der sthetisch gleichwertigen dichterischen Umarbeitung der Vorbildstelle setzt Dieser Band zeichnet unter Rekonstruktion ihrer jeweiligen sthetischen Prinzipien die Antworten nach die Seneca d Gellius und Macrobius auf die Homer Vergil Frage gefunden haben Die detaillierte Untersuchung über diesen speziellen Fall eines Autorenvergleichs ist eingebettet in die allgemeinere Fragestellung nach den Methoden und vor allem der Funktion komparativer Lektüre in der Antike überhaupt

[A Narratological Commentary on Herodotus' Histories](#) Irene J. F. de Jong, 2025-12-31 The narrative art of Herodotus Histories has always been greatly admired but it has never received an in-depth and systematic analysis. This commentary lays bare the role of the narrator and his effective handling of time, focalization, and speech in all the famous and much-loved episodes from Croesus via the Ionian Revolt to the climax of Xerxes' expedition against Greece. In paying close attention to the various ways in which Herodotus structures his story, it offers crucial help to get a grip on the at first sight bewildering structure of this long text. The detailed analysis of Herodotus' narration shows how his masterful adoption and expansion of the epic toolbox endowed the new genre of historiography with the same authority as its illustrious predecessor. The commentary is suitable for all readers of Herodotus' Greek text, students, teachers, and scholars.

**The Cumulative Book Index**, 1997 A world list of books in the English language [\*\*Narratology\*\*](#) Genevieve Liveley, 2019-03-28 This volume

explores the extraordinary contribution that classical poetics has made to twentieth and twenty-first-century theories of narrative, aiming not to argue that modern narratologies simply present old wine in new wineskins but rather to identify the diachronic affinities shared between ancient and modern stories about storytelling. By recognizing that modern narratologists bring a particular expertise to bear upon ancient literary theory and by interrogating ancient and modern narratologies through the mutually imbricating dynamics of their reception, it seeks to arrive at a better understanding of both. Each

chapter selects a key moment in the history of narratology on which to focus providing an overview of significant phases before offering detailed analyses of core theories and texts from the Russian formalists and Chicago school neo Aristotelians through the prestructuralists structuralists and poststructuralists up to the latest unnatural and antimimetic narratologists The reception history that thus unfolds offers some remarkable plot twists and yields valuable insights into the interpretation of some notoriously difficult ancient works Plato in the Republic is unmasked as an unreliable narrator and theorist while Aristotle's *On Poets* reveals a rare glimpse of the philosopher putting narrative theory into practice in the role of storyteller Horace's *Ars Poetica* and the works of ancient scholia by critics and commentators evince a rhetorically conceived poetics and sophisticated reader response based narratology which indicate a keen interest in audience affect and cognition anticipating the cognitive turn in narratology's most recent postclassical phase    *Forthcoming Books* Rose Arny, 1998
