Guidance

Implementation Of National
Practice Guidelines

The UHC Act Section 27.7 states that 'the DOH, in cooperation with professional societies and the academe, shall set standards for clinical care through the development, appraisal, and use of clinical practice guidelines (CPGs) based on best evidence, to assist practitioners in clinical decision making'. In response to this, the DOH Disease Prevention and Control Bureau, which houses the Expanded National Practice Guidelines Program (ENPGP), issued Administrative Order No. 2023-0012 entitled 'Institutionalization of the Expanded National Practice Guidelines Program'. This issuance requires locally-developed CPGs to undergo an appraisal of their reporting quality using the Appraisal of Guidelines, Research and Evaluation II (AGREE II), assuring target users that these CPGs were developed in a rigorous scientific manner with appropriate management of conflicts of interests. CPGs must satisfy at least 75% for the domains of rigor of development and editorial independence before they are endorsed to the Secretary of Health and included in the Compendium of DOH-approved clinical practice guidelines. These CPGs shall be used to guide health service delivery, policy-making, health technology assessment, benefit package development, and healthcare curricula updating. It is important to note that CPGs are based on the best available evidence on interventions for different health conditions. However, these guidelines should be interpreted based on the patient's individual circumstances and applied with sound clinical judgment. Guidelines should not be interpreted as strict rules on which legal action may be based, nor should they be the sole basis for evaluating insurance claims. Clinicians are expected to maintain discretion and exercise due diligence while upholding the patient's best interests in the utilization of CPGs. For feedback and other inquiries, the DPCB-EGMD can be contacted at egmd@doh.gov.ph.
