*The Conservative Government  
and the European Union, 1979-1997*

Jim Buller

# National Statecraft And European Integration

**Hilary Appel**

## **National Statecraft And European Integration:**

**National Statecraft and European Integration** Jim Buller,2000-09-13 This book examines Britain's reputation as an awkward partner in the EU Jim Buller focuses on the policy of successive Conservative governments asking why one of the most electorally successful political parties in the twentieth century eventually tore itself apart over Europe Isolating key events Buller analyzes the motivations of the Conservative governments He argues that far from being a semi detached partner British economic policy was increasingly Europeanized during this period

### **The Conservative Party and**

**European Integration Since 1945** N.J. Crowson,2006-12-05 This volume provides an up to date and comprehensive introduction to British policy in Europe By exploring the schisms within the party over Europe through primary source based history and theoretical discourses of political science N J Crowson gives the reader the best sense of understanding of how and why the Conservative party's policy attitudes to European integration have evolved The Conservative Party and European Integration since 1945 adopts a thematic line based around two chronological periods 1945-75 and 1975-2006 and uses different methodological approaches It explores the shifting stances amongst Conservatives within an economic political and international context as the party adjusted to the decline of Britain's world role and the loss of empire Crowson analyzes Britain's role and relationship with Europe together with the study of the Conservative Party and deals with economic commercial and monetary issues successfully bridging a serious gap in any discussion of the UK's relations with the European Union and appreciation of the political world in which Conservative European policy has been framed and pursued since 1945 This book is recommended for background reading in undergraduate courses in British politics and European history

### **British Public Opinion and Party Policy Towards European Integration, 1973-2016** Stuart

Smedley,2025-03-18 This book provides the first detailed historical account of British public opinion and party policy towards European integration from 1973 the year in which the UK joined the European Community to 2016 the year in which the UK voted to leave the European Union It takes a thematic approach towards this subject exploring party policy and public opinion towards significant developments in the European integration process during the period covered These include moves towards deeper and flexible integration economic and monetary union the Single Market enlargement and foreign and defence policy cooperation The author assesses the nature of British public opinion towards these developments some of which Britain's government and main political parties supported and others which they opposed and analyses the extent to which party policies reflected public opinion

### **European Union Enlargement** Jurgen Elvert,Wolfram Kaiser,2004-08-02

European Union Enlargement provides a comparative analysis of the post war European policies of those states that joined the European Union between 1973 and 1995 The volume draws upon new empirical research in order to investigate the policies that these newcomer states have had towards Europe since 1945 with an emphasis on their experience of membership and its possible Europeanising effect A final comparative chapter draws the national European policies of the

newcomers together and outlines what they have brought to the EU The book also tests integration theories against the available evidence demonstrating their limited explanatory value and the economic political and cultural specificity of different national paths towards EU integration **European Access** ,2002 *Philosophical Foundations of European Union Law* Julie Dickson,Pavlos Eleftheriadis,2012-10-11 This volume brings together legal philosophers political philosophers and EU legal academics in the service of developing the philosophical analysis of EU law In a series of original and complementary essays they bring their varied disciplinary expertise and theoretical perspectives to bear on central issues facing the Union and its law **Major Nation-States in the European Union** J. Richard Piper,2015-09-25 Integrating the study of individual European nation states within the framework of the European Union this unique new text is essentially two books in one a book on the EU and a comparative introduction to European politics This text provides more value to students by combining two texts in one but engages student interest and facilitates learning through a variety of useful features Role playing exercises encourage participation and test students critical thinking skills while an emphasis on the people behind the politics humanizes material and provides lively insights into contemporary European politics and society To ensure student understanding there is extensive material comparing and contrasting EU states to one another and to the United States a thorough glossary at the end of the book and an abundance of examples tables charts and graphs to illustrate and extend the discussions **European Integration and the Legal System** Alec Stone Sweet,2005 National Cultures and European Integration European Economic Community,Staffan Zetterholm,1994-09-15 Provides a contribution to the contemporary debate on the cultural dimension of European integration The contributors develop conceptual as well as empirical themes showing the importance of cultural diversity in Europe *Journal of European Integration* ,2008

*Double Allegiance in European Integration* Kees van Kersbergen,1997 *The Nordic States and European Unity* Christine Ingebritsen,1998 The idea of European unity which the Nordic states have historically resisted has recently become the foremost concern of Sweden Denmark Norway Iceland and Finland Christine Ingebritsen provides a timely analysis of Nordic economic and security policies in the wake of the vast transformation of regional politics between 1985 and 1995 The Nordic States and European Unity addresses two central questions Why did all five Nordic states trade autonomy for integration after 1985 And why do some follow the British pattern resisting supranationalism while others prefer the German strategy of embedding their policies in a common European project Through extensive interviews with representatives of trade unions government ministries parliamentary committees social movements and military and industrial organizations Ingebritsen charts adjustments to the idea of a regional system of governance She highlights crucial differences among these nations as they seek to protect their borders against new security threats In particular Ingebritsen shows how the political influence of leading sectors affects each state's capacity to pursue an integrationist policy Economic sectors are not uniformly affected by European policy coordination and the experience of the Nordic states demonstrates this difference Her

work shifts the focus of political economics away from enduring domestic institutions toward an understanding of institutions as sectoral and transnational *Lobbying, pluralism and European integration* Université libre de Bruxelles. Institut de sociologie, Université libre de Bruxelles. Institut d'études européennes, 1998 Nul ne peut plus ignorer la pr gnance du lobbying aupr s de l Union Europ enne UE l importance num rique du ph nom ne sa diversit son adaptation permanente au cadre europ en en font un sujet d tude central en sciences politiques aujourd hui Malgr le nombre de publications sur le th me peu abordent la question des rapports entre lobbies d mocratie et contr le politique dans le syst me d cisionnel fluctuant qu est l UE En alliant aussi bien la r flexion de praticiens que l analyse scientifique globale ou l tude approfondie de cas ce livre cherche tester la validit de diff rentes approches th oriques sur le sujet notamment travers le d bat pluralisme contre n o corporatisme Des th mes majeurs sont trait s les principes organisateurs de la m diation d int r ts la r glementation du lobbying la question du contr le politique pour contrer la corruption Les contributions examinent les nombreux acteurs organis s tant l chelon national qu infranational supranational ou international Much attention has recently been given to EU lobbying The reason is no doubt the proliferation diversification and reorganisation of interest groups gravitating around EU institutions Publications on lobbying in the EU are numerous yet the connection between lobbying and democracy ethics or the evolving political system of the EU is generally less well appreciated Drawing upon in depth case studies as well as on the experience of practitioners this book makes an attempt to reassess the validity of certain analytical frameworks and classical distinctions such as pluralism versus corporatism in the light of current practice While seeking to identify patterns in interest intermediation it also focuses on the regulation of lobbying and on crucial issues such as ethics and corruption Several actors present on the lobbying scene are examined in turn be it at the national subnational supranational or even extra European levels Le livre contient des contributions en fran ais et en anglais The book contains contributions in French and in English

**The British National Bibliography** Arthur James Wells, 2002 *Switzerland, Norway and the European Union* Sieglinde Gstöhl, 1996 **The European Union and Migrant Labour** Gareth Dale, Mike Cole, 1999-09 The problem of migration haunts Europe today Spectres of floods of migrants are deployed in justification of the ever tougher walls of what some observers fear is becoming Fortress Europe In response a growing critical literature on nationalism and racism in Europe has arisen However much of this discussion has remained eclectic and there is a lack of attention to the overall social processes within which migrations occur This book fills a gap in the present literature on the European Union and gathers together some of the richest recent Marxist inspired writing on migration It suggests that immigration is not the problem it is frequently made out to be but rather it is immigration control and racism that require problematizing Authors trace the contradictions between human rights and restrictions on movement citizenship work and social benefits to broader dynamics of capitalist development and argue that the politics of inclusion and exclusion are deeply rooted in the ideology and practices of capitalism Contributors take a critical look at the pressures guiding policy making by combining acute analyses

of the overall themes of racialization nationalism migration and the development of EU migration policy with in depth studies of most of its member states Specialists of each country address the importance of demands for labour and political pressures for restrictions on immigration in the face of entrenched racisms and or nationalism and examine the fundamental sources of conflict over migration control bringing together categories of analysis such as [The New European Union](#)

Steve Wood,Stephen Wood,Wolfgang Quaisser,2008 This concise but wide ranging work explores the major political economic and strategic challenges confronting the European Union in the context of a rapidly changing geopolitical environment Steve Wood and Wolfgang Quaisser consider the actors and issues at the center of current developments in the integration process Beginning with some basic conceptual questions for example what is Europe they focus on the Union s increasingly complex politics and economy Their discussion ranges from political economy to policy reform and institutional change to the arena of international relations They also address the more intangible factors of European identity and common political will An intriguing set of possible future scenarios concludes the authors up to date examination of the EU after enlargement [The Expansion of NATO and the European Union](#) Hilary Appel,2006

**Constitution Building in the European Union: The Process of Treaty Reforms** Brendan Smith,2002 This book focuses on the negotiations of what are termed the eight constitutional IGCs These eight include the negotiations of the 1950s and 1960s on the European Coal and Steel Community the European Defence and Political Community the European Economic Community and European Atomic Energy Community the Fouchet Plan the Single European Act the Maastricht Treaty the Amsterdam Treaty the Nice Treaty The book challenges the neofunctionalist and liberal intergovernmentalist perspectives that have been used in the past to explain the process of IGCs The author presents an alternative perspective in the form of an incremental model to explain the nature of negotiations at all eight constitutional IGCs It is also argued that the increasing frequency of IGC negotiations signifies a gradual institutionalisation of the process to the point where the constitutional IGC is becoming a regular feature on the EU s political landscape Governments are locked into a process of constitutional IGCs that leaves the primary legal document of the EU in a state of perpetual reform In turn it is argued that the incrementalism that defines the IGC negotiations shapes the entire process of European integration and the general nature of the European Union

*Reasonable Europeans* Thomas Christin,2008 Public support for the delegation of competencies to Europe is at the heart of this book Thomas Christin analyzes this major issue for European integration using survey and contextual data for country characteristics from 29 states both members of the European Union and candidate countries This innovative study shows how an affective factor identification and a utilitarian factor the quality of governance influence citizens willingness to delegate competencies to the EU Reasonable Europeans illustrates the major potential that this less rigid utilitarian factor conceals for the future development of the European Union specifically as well as for federal systems generally
