Sponsorship: For a Return on Investment Guy Masterman, 2012-06-14 Sponsorship is both a critical communications tool for sponsors as well as a fundamental revenue stream for rights owners. Market leaders use sponsorship widely and arguably more successfully than any other communications tool to achieve competitive advantage whilst events of all sizes depend on sponsorship just to exist. As the importance of sponsorship has increased the demands of it have risen too. Now sponsors seek measurable return on their investment. *Sponsorship For a Return on Investment* provides a unique insight on the use of sponsorship for a return on investment and will appeal to practitioners and undergraduate and postgraduate students alike. It builds a conceptual framework for the development, planning, implementation and evaluation of strategies for sport, arts, music and community sponsorship and from two perspectives. For rights owners, the importance of effectively acquiring and then developing a bespoke approach for the recruitment of sponsors for effective sponsorship programmes. For sponsors, a better understanding of how sponsorship can be used for successful integrated marketing communications. A broad selection of examples and case studies from around the world are provided in order to demonstrate the importance of sponsorship on an international basis. This book is a vital resource for both students and practitioners. Management Between Strategy and Finance Burkhard Schwenker, Klaus Spremann, 2008-11-21 Companies' decision making and planning systems find themselves in a constant tug of war between strategic and financial considerations. The authors analyze these two opposing currents in business thinking, dissecting their differences and identifying their best practices. They also develop an approach that reconciles the two conflicting schools of thought without watering down their differences. Schwenker and Spremann argue that both strategic and financial perspectives can serve as a compass in management's decision making processes. Which perspective to choose depends on the phase of business. The authors distinguish four phases in the company lifecycle phases in which the business must find the proper position, develop, grow and ultimately earn. In the first two phases, strategic considerations should take priority; in the latter two phases, financial considerations rule the day. **Understanding USA** Richard Saul Wurman, 1999 Consists of statistical graphs that explain the state of America at the Millennium.
