Strategy. Part 2 Kris Safarova, 2021-08-26 *The Strategy Engagement. Part 2* Kris Safarova, 2021-01-21

The goal of this book is to help you think like a strategy partner and more importantly, develop insights like a strategy partner. Almost every management or strategy book is written after the fact. They are written years or months after the situation described. They are written after the authors have had time to sift through their extensive work and piece together a cohesive story. Hindsight is twenty-twenty. Those types of books are valuable because they eliminate the noise the authors sift out, the dead ends they encountered, and the wasteful tasks and unproductive administrative nightmares they had to endure to, for example, obtain a key piece of data. You will not see the numerous iterations before the authors arrived at their final framework. You will not know the piece of data off-hand, comment, article, or client quote that sparked the evolution of the second, third, fourth, and final iteration of the framework. You will not see how the hypotheses evolve as vital information and clues are unearthed in conversations with the client, from analyses and team discussions. You will not observe the choppy nature of how an insight develops. You will not see how an early version of an insight is discussed, dismissed, and sometimes forgotten until a key piece of new data makes it relevant again. You will not see the numerous discussions to tweak and adjust hypotheses, insights, and the final messaging to the client. Those books provide valuable lessons and observations. Yet the experience is what shapes a leader. This book is different and attempts to give you that experience. To see the messy steps involved. It was written in real time. The notes were written hours before an event happened or hours afterward, usually on the same day.

The Firm Duff McDonald, 2013-09-10. A revelatory history of the controversial consulting firm traces its decades-long influence in both business and political arenas, citing its role in the establishment of mainstream practices and modern understandings about capitalism.

Strategy. Part 1 Kris Safarova, 2021-08-27. Do you want to develop a counterintuitive strategy insight and/or lead a team to develop a counterintuitive strategy insight? You have enough experience to know that frameworks, decision trees, applying MECE and 80/20 principles, hypotheses, and structured problem-solving are important, but they are not enough. You know a brilliant insight often looks like a mediocre insight. A great strategy often looks like a bad strategy. Analysis is messy. Data is flawed and misleading. Best practices routinely fail. Hypotheses change. Data changes. Linear thinking often does not work. This book helps solve this problem. We present the background to a client. You get to follow the design of the strategy study and watch how the solution is developed. Over the past 10 years on StrategyTraining.com and FIRMSconsulting.com, you have seen us help numerous clients solve complex business problems: developing a big data strategy, a corporate strategy, a digital IT strategy, a pandemic disaster strategy, a luxury brands strategy, a turnaround transformation strategy, and more, all based on the combined best practices of the author and the ex-McKinsey BCG et al. partners who produce all the strategy training programs on StrategyTraining.com. The book takes you step by step, week by week and day by day, through the process to receive a problem frame, the problem structure, the analysis, assemble the team, manage the team, and manage the client toward the solution. You get to go inside the mind of a strategy partner. That is the greatest benefit of this book. At times, you will see references to additional resources that our most loyal members, FIRMSconsulting Insiders and SLIDES members, have access to should they need to dive deeper into a specific topic, e.g., competitive strategy, digital IT strategy, implementation, problem-solving, etc. Note: Due to the page number restrictions for print books, this book is split into two parts. You can follow the rest of the engagement in Part 2. *When McKinsey Comes to Town*, Walt Bogdanich, Michael Forsythe, 2022-10-04. *Big Business and Human Values*, Theodore V. Houser, 2012-04-01.

The McKinsey Mind Rasiel, 2003-12. Frame business problems to make them susceptible to rigorous fact-based analysis. Use the same fact-based analysis in conjunction with gut instinct to make strategic

decisions Conduct meaningful interviews and effectively summarize the content of those interviews Analyze the data to find out the so what Clearly communicate fact based solutions to all pertinent decision makers Capture and manage the knowledge in any organization to maximize its value
