trade data because the information you need is right at your fingertips *Records Management and the Library* Candy Schwartz, Peter Hernon, 1993 Measurement in Information Science Bert R. Boyce, Charles T. Meadow, Donald H. Kraft, 1994 Providing detailed discussions of measurement from a variety of viewpoints and a wide range of applications this practical text examines how measurement is defined and used in information science including documents text records searching output services and data collection The book is an excellent secondary or recommended text for courses in research methods information retrieval database management and systems design Covers the quantitative and qualitative aspects of measurement Examines mathematical and statistical concepts Explores measurements of databases and information retrieval **Australian Academic and Research Libraries**, 2001 **RQ.**, 1994 **Providing Materials for Library Users** David Spiller, 2000 The change in title for this sixth edition of *Book Selection* reflects a move towards a more inclusive approach to reflect the realities of the principles and practice of selecting materials for library users The text provides guidance on basic selection procedures for both print based and electronic materials and it also covers the provision vs access debate Key strategies and techniques covered include selection policy budgeting assessing users requirements logistics weeding stock revision and performance measurement and evaluating materials *Quality Management for Information and Library Managers* Peter Brophy, Kate Coulling, 1996 This book introduces the concepts of quality management to information and library managers and those in related service industries and suggests how the strengths of the quality movement can be harnessed by those working in the sector The first part examines how quality management has developed in other areas with particular reference to services and shows how Total Quality Management can contribute to improved performance and effectiveness In the second part quality management in the library and information sector is reviewed with particular reference to mission performance measurement and charters The emphasis is on quality management as an holistic approach which needs to permeate all parts of the organization whilst retaining the primary focus of meeting customer needs There is an extensive bibliography of sources from both library and information services and other service commercial and industrial backgrounds **The Bowker Annual** Dave Bogart, 1997 Library Herald, 1995

Introduction to Library Services Barbara E. Chernik, 1992 Formerly titled *Introduction to Library Service for Library Technicians* this updated text aims to provide a comprehensive overview of the field from concepts governing libraries to types of libraries policies and procedures personnel materials and library services **Evaluation and Library Decision Making** Peter Hernon, Charles R. McClure, 1990 Evaluation which is a critical component of the planning process assesses the effectiveness and efficiency of library programs and services in the context of stated goals and objectives This book views evaluation as a type of research study in which evaluators collect either research or management data Chapters discuss steps of the evaluation process and provide practical examples of the application of these steps to specific library problems The overall objectives of the volume are to introduce readers to the relationship between planning and evaluation to discuss the

components of an evaluation study in clear prose so that readers can easily understand the different steps to foster an attitude that recognizes the importance of evaluation for the development of library programs and services to offer examples of each component of the evaluation process to identify writings on evaluation in libraries and information centers and to encourage organizational change and underscore the importance of evaluation to library decision making **Kentucky Libraries** ,1990
