Claim:

There are different aquatic systems with diverse organisms.

Evidence	Reasoning/Justification
Aquatic ecosystems have abiotic - temp, light, salinity, depth	Different organisms can tolerate different factors
Some organisms prefer fresh water vs. saltwater. Bull sharks + manatees tolerate both	Bull sharks and manatees are very different, but tolerate same conditions
Depth reduces light and increases pressure. Organisms deal with this differently.	Many types of adaptations exist to survive in these conditions
The geography of an aquatic environment can determine the life forms present.	Continental shelf gets lots of light, so there's many living things. Not so in the abyss.
Photosynthesis takes place in the neritic zone.	It is the most productive area of the ocean. Plankton are base of food chain.
Metabolism is affected by temp. Many species are cold-blooded.	Organisms can migrate or must have adaptations to survive.

Ensemble! Abram Loft,1992 As performer coach teacher scholar and author Abram Loft has devoted himself to chamber music for almost half a century In this useful and diverting book he draws on his vast experience to guide the reader through thirty compositions from piano trio to string sextet from Haydn to Britten The treatment by this master teacher is both detailed and serious but far from solemn Bowings fingerings tone color dynamics tempo balance rubato phrasing repeats these are among the many facets of rehearsal and performance that Loft touches on in his discussions He relates every element to the movement at hand and to the musical logic of the composition as a whole He lets us know when to heat up the melody and when to exit laughing He draws us into the composer s perspective and attunes us to the significant musical events as they unfold His enjoyment and respect for the work are evident And always there is the good humored understanding that his own approach highly informed though it is is but one among a number of possible concepts His aim is to encourage each ensemble to arrive at its own thoughtful interpretation of the composition under study Ensemble speaks to the professionally oriented group the serious student ensemble and the amateur enthusiast of chamber music This book can supplement the advice and observation of the live instructor and also serve as a surrogate coach and tutor Ensemble guides the reader through the challenges and around the pitfalls of a most demanding pursuit the playing of fine chamber music Convincing and confident performance is the attainable goal **Proceedings** ,1976 **Proceedings PLP.** ,1976
