

# Dietary Intake Guide

A helpful resource to help measure meals, liquids, or supplements consumed.  
Record amount of the total meal or supplements consumed using the following guidelines.  
Overestimating total consumption is a common error, especially when food is pushed around on the tray. Avoid letting how much a resident normally consumes influence your estimate.

Patient \_\_\_\_\_  
Room Number \_\_\_\_\_  
Date \_\_\_\_\_

## Food Consumption

**0% Refused—0%**  
Refused meal completely, or consumed only one or two bites of each item.

**25% Poor—25%**  
Approximately 25% of entree, or 50% of one item consumed.

**50% Fair—50%**  
Approximately half of food is consumed (eg, 50% of entree, 25% of vegetable and soup left). If total entree is consumed but no other food is touched, record as Poor/25% — not Fair/50%.

**75% Good—75%**  
Majority of the meal is consumed, but a significant amount of one or more items is left (eg, 25% of entree or 75% of vegetable left).

**100% All—100%**  
Entire meal is consumed except for a minimal amount of food (eg, less than 25% of vegetable left).
