## **Numicon Telling Time:**

**More Trouble with Maths** Steve Chinn, 2016-07-21 More Trouble with Maths acknowledges that there are many reasons why children and adults are unable to function mathematically. Difficulties include problems with rote learning basic facts and procedures, debilitating anxiety, poor working and short term memories, and mathematics vocabulary. Central to this new edition is a range of standardised tests and diagnostic activities including a 15 minute test of basic mathematics, a thinking style test, tests of basic fact retrieval and maths anxiety. Guiding the reader in the interpretation of tests, this new edition shows how identifying the barriers to learning is the first step in a programme of intervention. Written in an engaging and user friendly style, Steve Chinn draws on his extensive experience and expertise to show how to consider and appraise the many factors relating to mathematical learning difficulties, explain how these factors can be investigated, explore their impact on learning mathematics. Emphasising the need for a clinical approach when assessing individuals, this book shows how diagnosis and assessment can become integrated into everyday teaching. This highly practical and relevant resource is a crucial resource for anyone who wants to accurately and effectively identify the depth and nature of mathematical learning difficulties and dyscalculia.

*Maths 5-11* Caroline Clissold, 2019-10-23 Focusing on good progression from Reception to Year 6, *Maths 5-11* provides a clear and concise presentation of the fundamental knowledge that all primary mathematics teachers need. It provides readers with practical knowledge for the planning and assessment necessary to employ the theories expressed in the book. Ranging from number sense and place value to looking in depth at the various aspects of fractions and mathematical reasoning, this book explores mathematical connections inside and outside of the curriculum, the relation of mathematics to other primary subjects such as science, geography and art, mathematics teaching practices from high performing jurisdictions across the world, the progression of learning from primary school to secondary school, the big ideas in mathematics and activities that provide strategies for children to use responsively and creatively. Helping primary teachers and mathematics coordinators improve and enhance their mathematical subject knowledge and pedagogy, *Maths 5-11* will re-instil an excitement about teaching mathematics among its readers.

*It Just Doesn't Add Up* Paul Moorcraft, 2019-09-01 This book explains dyscalculia, but for the first time from the perspective of a sufferer. It is estimated up to 5% of the population suffers from the condition. Often humorous, sufferers and their carers will find it a relief and a joy to share experiences and learn more about how to cope.

Special Educational Needs and Disabilities in Schools Janice Wearmouth, 2021-09-09 *Special Educational Needs and Disabilities in Schools* is an essential thoroughly updated resource designed to support you during and beyond your teaching training to understand, assess and address special and additional educational needs and disabilities. SEND. This second edition retains the same structure throughout but in addition to the expected updates throughout to the latest research and legislation, new developments include a clear discussion of the principle of equity that underpins legislation, expanded discussions of key topics such as bullying, social, emotional and mental

health greater discussion of working collaboratively within schools and with families detailed coverage of planning for transition across the age ranges suggestions of hardware and software for day to day use and use in exam conditions an increased focus on the importance of positive and supportive relationships how to use this book feature to highlight carefully developed pedagogical features and companion website support Drawing on her wealth of experience close contact with schools families and students as well as relevant research Janice Wearmouth looks at SEND legislation within historical geographical social and political contexts to help you to understand how and why current policy and practice has developed in the ways it has She explores a wide range of informal and standardised approaches to assess and address the most common forms of SEND literacy and numeracy difficulties and behavioural concerns related to social emotional and mental health At the heart of this book is the need to understand of children and young people with SEND as individual human beings with their own hopes dreams and entitlement to the best possible education we can offer With this in mind Wearmouth draws uses key questions to introduce each chapter and reflective activities to encourage you to consider your own practice to ensure that all young people reach their potential She uses a range of exemplars vignettes and personal accounts of young people s and families experiences within the field to illustrate policy and provision for SEND in a highly authentic and engaging way The supportive companion website provides a wealth of further resources for individual and group reading reflection and activities including links to the latest legislation and supporting reflective activities
