Understanding Mathematics □ 7 C. Sailaja, Smita Ratish, Lata Wishram, Understanding Mathematics is a carefully written series of mathematics to help students encourage the study of mathematics in the best interactive form. It contains ample practice material, attractive illustrations and real life examples for the students to relate the topics with their everyday life. Special care has been taken while teaching topics like geometry and probability to the students. Keeping in mind the development status and comprehension level of students the text has been presented in a well graded manner.

Monitoring and Management Sandeep Kumar Vashist, John H.T. Luong, 2019-02-20 This book describes the emerging point of care POC technologies that are paving the way to the next generation healthcare monitoring and management. It provides the readers with comprehensive up to date information about the emerging technologies such as smartphone based mobile healthcare technologies, smart devices, personalized POC technologies, paper based immunoassays, IAs, lab on a chip, LOC based IAs, and multiplex IAs. The book also provides guided insights into the POC diabetes management software and smart applications, and the statistical determination of various bioanalytical parameters. Additionally, the authors discuss the future trends in POC technologies and personalized and integrated healthcare solutions for chronic diseases such as diabetes, stress, obesity, and cardiovascular disorders. Each POC technology is described comprehensively and analyzed critically with its characteristic features, bioanalytical principles, applications, advantages, limitations, and future trends. This book would be a very useful resource and teaching aid for professionals working in the field of POC technologies, in vitro diagnostics, IVD, mobile healthcare, Big Data, smart technology, software, smart applications, biomedical engineering, biosensors, personalized healthcare, and other disciplines.
