

DP/4+

Are your effects processing needs growing faster than your budget? To the rescue – the DP/4+ Parallel Effects Processor. Four independent stereo effects processors integrated into a 2U rack space, for the utmost in flexibility, functionality, and fidelity.

Four balanced (TRS) inputs can process from 1 to 4 separate signals. For 1 input (like your guitar), you can use all 4 processors to create an amazing sound – rivaling those expensive custom rigs you've dreamed about. Route 2 or 3 different signals to the DP/4+ and divide the processors between them. Finally, you can use a single processor for each of 4 separate input signals for maximum flexibility.

Your output choices are just as flexible. Our advanced mixing scheme lets you maintain signal independence or mix signals together into 1 or 2 stereo fields. You can even use the DP/4+ as 4 mono in/stereo out processors!

Still, all this wouldn't mean much if the DP/4+ didn't sound so good, or come with the effects you need. First, we improved the audio circuitry for even cleaner performance. We've kept the same 46 algorithms that critics raved about in the original DP/4, and added some powerful new ones (like 2 dynamic tube amp algorithms for a natural guitar sound that gets dirtier as you play harder, a guitar tuner, additional guitar amps and effects, and even a vocal "remover"). In total you've got 54 algorithms designed for the highest fidelity and the most control over your sound possible.

Ground-compensated inputs and outputs, and a ± 10 dB switch provide better signal matching to your other gear. A front-panel combination XLR/1/4" input gives you easy access even when the DP/4+ is in a rack. And a headphone jack with signal soloing allows you to tweak your sound in

private, or practice your guitar amp-free!

We first developed this signal processing concept in the DP/4, which has won critical acclaim and awards around the world. It's been used on countless records, film scores, TV shows, and live concerts, by a veritable "who's-who" of top artists and engineers. Now we've made it even better – for guitar players, home studios, and professional use.

The DP/4+ Parallel Effects Processor. The one-of-a-kind processor designed to meet the demands of today's recording and performing artist.
