Addressing Gaps and Advancing Scholarship in the Study of Psychological Contracts Sarah Bankins,Yannick Griep,Samantha D. Hansen,2024-08-09 This book acknowledges the significant changes in the context and contours of the traditional employee employer relationship over the last several decades and highlights the emergence of exciting new directions for the study of psychological contracts PC New technologies and emergent forms of work are extending the temporal and spatial boundaries of employment such as through the rise of the shared economy and gig workers uptake of virtual work and flexible work arrangements and the use of off site co working spaces Technology use now permeates many aspects of jobs supported by artificial intelligence and machine learning technology Factors that motivate work are also changing as new generations of employees embrace their callings and organizations increasingly recognize their responsibilities to society and to employee wellbeing These changes are altering the traditional employer employee relationship and are key motivators of this volume The chapters in this volume chart new directions for PC research over the next decade by widening the theoretical and methodological lenses used to explore PC processes This book will be valuable to advanced students researchers and practitioners in organizational psychology organization studies workplace training and human resource management as well as those interested in improved performance of people and organizations The chapters in this book were originally published as a special issue of the European Journal of Work and Organizational Psychology

Engaging in the Scholarship of Teaching and Learning Cathy Bishop-Clark,Beth Dietz-Uhler,2023-07-03 This is a book for anyone who has ever considered engaging in the scholarship of teaching and learning known familiarly as SoTL and needs a better understanding of what it is and how to engage in it The authors describe how to create a SoTL project its implications for promotion and tenure and how it fosters Increased satisfaction and fulfillment in teaching Improved student learning Increased productivity of scholarly publication Collaboration with colleagues across disciplines Contributing to a growing and important body of literature This guide provides prospective SoTL scholars with the necessary background information foundational theory tools resources and methodology to develop their own SoTL projects taking the reader through the five stages of the process Generating a research question Designing the study Collecting the data Analyzing the data and Presenting and publishing your SoTL project Each stage is illustrated by examples of actual SoTL studies and is accompanied by worksheets to help the reader refine ideas and map out his or her next steps The process and worksheets are the fruit of the successful SoTL workshops the authors have offered at their institution for many years SoTL differs from scholarly and reflective teaching in that it not only involves questioning one s teaching or a teaching strategy but also formally gathering and exploring evidence researching

the literature refining and testing practices and finally going public The purpose of SoTL is not just to make an impact on student learning but through formal peer reviewed communication to contribute to the larger knowledge base on teaching and learning While the roots of SoTL go back some 30 years it was Ernest Boyer in his classic *Scholarship Reconsidered* who made the case for the parity of the scholarships of integration of discovery of application and of scholarship of teaching as vital to the health of higher education Glassick Huber and Maeroff s subsequent *Scholarship Assessed* articulated the quality standards for SoTL since when the field has burgeoned with the formation of related associations a proliferation of conferences the launching of numerous journals and increasing recognition and validation by institutions
