On the left, a man with brown hair wearing an orange polo shirt is shown from the waist up, gesturing with both hands held out towards the other man. On the right, a balding man with a goatee, wearing a blue long-sleeved shirt and blue pants, is holding a small knife in his right hand and looking towards the man in orange. global economic crisis this book is about a better future Patrick Callioni identifies and describes the major waves of change
that are coming our way over the next decade or so and then provides practical advice on what to do or avoid doing to benefit
most or suffer least from what is to come He describes some of the problems with the present regime of regulation We are
regulating to catch the motes of dust floating in the air rather than the beams that end up poking out the eyes of our financial
markets and suggests regulation should focus on rewarding the good rather than punishing the bad He also analyzes some of
the behavior that helped to create the Credit Crunch They took healthy debt mortgage debt that was likely to be repaid
mixed it up with toxic debt mortgage debt not likely to be repaid and then sold the debt on as prime safe debt creating untold
damage Then he presents the waves of change that are coming the challenges of new technologies the business opportunities
opened by reactions to climate change and demographic changes as workers and managers are no longer predominantly
baby boomers He also warns of future signs of impending financial setbacks that should be avoided A financial crisis will
occur only when the fuel is there in the form of an investment bubble In his previous book Compliance and Regulation in the
Financial Services Industry Patrick Callioni successfully predicted most of the course of the current economic downturn Over
regulation is as dangerous as under regulation so he proposes the creation of a federated network of trust Throughout this
exciting book he emphasizes the increasing importance of knowledge capital value that is not captured by existing
accounting standards and in particular soft intangibles knowledge assets time assets motivational assets etc and he proposes
guidance on their measurement and profitable management **Commercial and Financial Chronicle Bankers Gazette,**
