Online Interviews In Real Time:

Online Interviews in Real Time Janet Salmons, 2009-12-02 This book provides emerging and experienced scholars the theoretical background and practical tips they need to design and conduct credible online interview research Author Janet Salmons bridges the theoretical and the practical with guidance for designing and conducting credible online interview research This book focuses on data collection through dynamic online interviews in text based videoconference meeting space or 3D immersive environments *The SAGE Handbook of Interview Research* Jaber F. Gubrium, 2012-02-14 The complete handbook on interviewing the Second Edition deals with conceptual and methodological challenges to interviewing in addition to the nuts and bolts of the interview process **Online Interviewing** Nalita James, Hugh Busher, 2009-09-02 Online Interviewing is a short accessible and highly practical introduction to designing and conducting online interviews in qualitative research James and Busher focus on helping the reader to understand the methodological and epistemological challenges of carrying out online interviews in the virtual environment They highlight the many new ethical issues that face researchers in this medium The authors also encourage an engagement with the critical theoretical issues that must be considered in the conduct of online interviews The resulting book is a well reasoned introduction to the challenges and opportunities offered by online interviewing drawing on a wide range of international sources to support these discussions This is an ideal first introduction for anyone who is interested in using online methods and who has an interest in the theory of the method It will be an invaluable resource for undergraduate and postgraduate level students in the social sciences and for professional researchers *Qualitative Online Interviews* Janet Salmons, 2014-04-28 The Second Edition of Qualitative Online Interviews by Janet Salmons provides researchers the guidance they need to extend the reach of their studies beyond physical boundaries Focusing on designing conducting and assessing data drawn from online interviews as well as from observations materials and artifacts collected online the book emphasizes the use of in depth interviews in qualitative research or mixed methods designs Written in an easy to read manner the thorough Second Edition offers the practical information and scholarly foundations needed to make thoughtful decisions in technology infused research *Qualitative Research* David Silverman, 2016-05-28 A who's who of methodologists this book introduces students to the big picture of qualitative research teaching both the why and the how to of getting started selecting a method and conducting research and data analysis With practical tips summaries exercises and further reading each chapter is like a masterclass from a leading scholar in qualitative research New to the fourth edition A streamlined structure to guide readers step by step through the research process Substantial new section with 4 chapters on how to collect and analyse online data A new chapter on reflexive ethnography More hands on advice on how to conduct research at every stage making this a perfect field handbook Updated reading lists provide a go to guide to the literature and help improve citations The most comprehensive qualitative research book available this is the perfect all in one companion for any student embarking on a qualitative research course or

project **Qualitative Social Research** Vivienne Waller, Karen Farquharson, Deborah Dempsey, 2015-11-16 Qualitative Social Research employs an accessible approach to present the multiple ways in which criticism enhances research practice. Packed full of relevant real world examples it showcases the strengths and pitfalls of each research method integrating the philosophical groundings of qualitative research with thoughtful overviews of a range of commonly used methods. This book is ideal for students and prospective researchers and explains what makes qualitative sociological research practical, useful and ethical. It's an essential guide to how to undertake research, use an appropriate research design and work with a range of qualitative data collection methods and includes detailed discussions of ethical issues, references to new technologies in each chapter, explanations of how to integrate online and visual methods with traditional data collection methods, exercises to enhance learning. The authors use their many years' experience in using a range of qualitative methods to conduct and teach research to demonstrate the value of critical thinking skills at all stages of the research process. *Cases in Online Interview Research* Janet Salmons, 2011-11-08 In an era of constrained research budgets, online interviewing opens up immense possibilities: a researcher can literally conduct a global study without ever leaving home. But more than a decade after these technologies started to become available, there are still few studies on how to utilize online interviews in research. This book provides 10 cases of research conducted using online interviews with data collected through text-based videoconferencing, multichannel meetings and immersive 3D environments. Each case is followed by two commentaries: one from another expert contributor, the second from Janet Salmons as editor. Starting and Operating Live Virtual Reference Services Marc Meola, Sam Stormont, 2002 In this text, the minds behind Temple University's real-time virtual reference desk walk the reader through six key steps to starting and operating a virtual reference service. They identify five service models: basic, homegrown, advanced, collaborative and corporate. **Doing Qualitative Research in a Digital World** Trena M. Paulus, Jessica N. Lester, 2021-01-28 While some qualitative methods texts touch upon online communities as a potential data source, show how to conduct interviews and focus groups online or select recording devices and analysis software, no book to date has guided readers in the creation of a comprehensive digital workflow for their research. By working through each chapter in this book, readers will be able to generate a unique digital workflow for designing and implementing their research. The book provides a deep exploration of the relationship between theories of technology, substantive theories and methodological theory and shows how together these inform the development of a quality research design. The authors include vignettes, narratives written by qualitative researchers describing cutting-edge use of digital tools and spaces and also give examples of published studies which together provide practical illustration of the content. Woven throughout is explicit attention to ethical challenges that are likely to be faced by researchers when adopting digital tools. The book invites readers to engage in a critical appraisal of the role of technology in qualitative research through reflection, conversation and engagement with the larger community of researchers. **Conducting the Reference Interview** Catherine Sheldrick

Ross, Kirsti Nilsen, Patricia Dewdney, 2002 This handbook offers information and tips for librarians on conducting the reference interview It features models of communication such as sense making and microtraining exercises for avoiding common pitfalls and examples of both successful and problematic interviews Four in One Edward A. Dornan, Robert Dees, 2001-08 This rhetoric reader research paper guide and brief handbook is the first writing text to fully explain the how s and why s of critical thinking This discussion of critical thinking is integrated into the chapters on the writing process and the patterns of organization Through this unique approach students learn how to use reflective and critical thinking in writing and reading The book is designed for maximum flexibility each part of the book is self contained The readings section of the book is organized alphabetically so instructors are not locked into just one approach The text also features an ESL section in its handbook a unique chapter on using the Internet for research and individual and collaborative exercises throughout *Digital Reference Services in Academic Libraries* Ab. Kadir Wan Dollah (Wan.), 2012 Work the Web, E-marketing Simon Collin, S. M. H.
