Act Practice Music Festival Update:

The Law Times, 1873 **Musical News**, 1897 *Public Opinion*, 1872 **Event Medical Provision** Ashley Garlick, 2026-01-22 This pioneering textbook delves into one of event management's most crucial yet often overlooked aspects: medical provision, providing readers with a comprehensive, relevant and insightful introduction to key concepts and practice. Moving beyond simple first aid, this book presents a robust framework for professional planning. It delves into the legal responsibilities of organisers, the intricacies of risk assessment and the practicalities of deploying the right personnel, skills and facilities for any event. With dedicated chapters on sporting events, music festivals and static venues, alongside crucial guidance on welfare and emergency planning, this text equips readers with the knowledge to make effective and defensible decisions. Discussions throughout are supported with case studies showcasing theory in practice and a range of pedagogical features to aid understanding. Essential for all students, practitioners and researchers in event management as well as the related fields of tourism, hospitality and leisure, this book is the definitive guide to safeguarding events and protecting attendees.

Musical News, 1913 Beyond the Risk Paradigm in Mental Health Policy and Practice Sonya Stanford, Elaine Sharland, Nina Rovinelli Heller, Joanne Warner, 2017-03-29 Modern society is increasingly preoccupied with fears for the future and the idea of preventing the worst. The result is a focus on attempting to calculate the probabilities of adverse events occurring, in other words, on measuring risk. Since the 1990s, the idea of risk has come to dominate policy and practice in mental health across the USA, Australasia and Europe. In this timely new text, a group of international experts examines the ways in which the narrow focus on specific kinds of risk, such as violence towards others, perpetuates the social disadvantages experienced by mental health service users, whilst at the same time ignoring the vast array of risks experienced by the service users themselves. Benefitting from the authors' extensive practice experience, the book considers how the dominance of the risk paradigm generates dilemmas for mental health organizations as well as within leadership and direct practice roles and offers practical resolutions to these dilemmas that both satisfy professional ethics and improve the experience of the service user. Combining examination of key theories and concepts with insights from front-line practice, this latest addition to Palgrave's *Beyond the Risk Paradigm* series provides an important new dimension to debates on mental health provision.

Drawing from backgrounds ranging from curatorial studies to festival studies and musicology, Brandon Farnsworth lays out a theory for understanding curatorial practices in contemporary music and how they could be a solution to the field's diminishing social relevance. The volume focuses on two
