

## THE 5 STEPS OF MEDITATION

1

### FIND YOUR SPACE

Seek out a quiet and undisturbed environment that allows you to retreat from external distractions and cultivate a sense of calm and serenity.

2

### FIND YOUR POSE

Assume a comfortable position, such as sitting cross-legged or lying down, that allows you to be relaxed and alert.

3

### FOCUS ON BREATH

Direct your attention to the sensation of your breath, observing each inhalation and exhalation without judgment.

4

### ACKNOWLEDGE AND LET GO OF THOUGHTS

Notice any thoughts that arise during meditation, acknowledge them without getting attached, and gently let them go, returning your focus to the breath.

5

### STAY CONSISTENT

Regularly engage in meditation practice to cultivate a habit and experience the cumulative benefits it can offer.

*The Beginner's Guide To Meditation* RD king, There is nothing more stressful than having a billion things to do during the day without having even just a second to yourself The hustle and bustle of everyday life can get to be very overwhelming Fortunately there is a solution No matter how many demands you have placed upon you during the day Meditation is an option that you can easily make the time for Even just setting aside five minutes for yourself can make the difference between a frazzled miserable mess at dinner time and a balanced calm person who is ready to take the next step no matter where it leads Meditation has become a very popular subject and for good reason

*Modern Chakra Meditation Guide* , [Meditation](#) Adidas Wilson , Maximus Wilson , According to Aristotle people can choose to be happy A new study shows that it is possible for you to grow a happier brain physically using practices such as meditation Science has already determined the hormones that give rise to emotions like desire or pleasure but no one has been able to say for sure where feelings of well being and overall contentment come from Kyoto University scientists set out to get the answer They gathered 51 volunteers and asked each one of them to rate their own levels of happiness They then scanned the brains of the volunteers to try and see if there were any differences between the glum individuals and the upbeat

ones Surprisingly the happier people had a larger precuneus an area of the brain This means that you can work happiness like a muscle Some studies in the past have shown that it is possible to boost grey matter in your precuneus with regular meditation This explains why meditators experience feelings of bliss and even general contentment The scientist who oversaw this study said that medics could now measure the things that increase happiness in people
