Employers can use your credit score to decide whether you can be trusted in a high responsibility job that requires you to handle money The problem with credit scores is that there is quite a bit of misinformation circulated about especially through some less than scrupulous companies who claim they can help you with your credit report and credit score for a cost of course From advertisements and suspect claims customers sometimes come away with the idea that in order to boost their credit score they have to pay money to a company or leave credit repair in the hands of so called experts Nothing could be further from the truth It is perfectly possible to pay down debts and boost your credit on your own with no expensive help whatsoever In fact the following 101 tips can get you well on your way to boosting your credit score and saving you money By the end of this ebook you will be able to Define a credit score a credit report and other key financial terms Develop a personalized credit repair plan that addresses your unique financial situation Find the resources and people who can help you repair your credit score Repair your credit effectively using the very techniques used by credit repair experts Plus unlike many other books on the subject this ebook will show you how to deal with your everyday life while repairing your credit Your credit repair does not happen in a vacuum This book will teach you the powerful strategies you need to build the financial habits that will help you to keep a high credit risk rating It really is that simple Start reading and be prepared to start taking small but powerful steps that can have a dramatic impact on your financial life *Financial Aid for the Utterly Confused* Anthony J.
