Alternative Medicine - New Insights Cengiz Mordeniz, 2025-01-29 Modern medicine often treats individuals as standardized patients categorizing them by defined diseases and creating lifelong dependency on medications Side effects are managed by introducing additional medications creating a never ending cycle Patients are not cured but their symptoms are depressed as long as the drug is taken For example a simple headache is broken down into subgroups each explained by different causes and mechanisms However some patients suffer for years and their headaches are not eliminated The same approach is applied to other pain conditions as well as diseases like cancer rheumatism and others A new idea emphasizes revisiting traditional methods and products to inspire new trials To integrate these methods more scientific studies and reliable data are needed This book introduces innovative methods that combine traditional approaches with scientific insights offering a personalized and holistic perspective for natural healing
