**Using Science to Improve the BLM Wild Horse and Burro Program** National Research Council, Division on Earth and Life Studies, Board on Agriculture and Natural Resources, Committee to Review the Bureau of Land Management Wild Horse and Burro Management Program, 2013-09-04 Using Science to Improve the BLM Wild Horse and Burro Program A Way Forward reviews the science that underpins the Bureau of Land Management s oversight of free ranging horses and burros on federal public lands in the western United States concluding that constructive changes could be implemented The Wild Horse and Burro Program has not used scientifically rigorous methods to estimate the population sizes of horses and burros to model the effects of management actions on the animals or to assess the availability and use of forage on rangelands Evidence suggests that horse populations are growing by 15 to 20 percent each year a level that is unsustainable for maintaining healthy horse populations as well as healthy ecosystems Promising fertility control methods are available to help limit this population growth however In addition science based methods exist for improving population estimates predicting the effects of management practices in order to maintain genetically diverse healthy populations and estimating the productivity of rangelands Greater transparency in how science based methods are used to inform management decisions may help increase public confidence in the Wild Horse and Burro Program

*A Year in Review: Discussions in Immunological Memory* Scott N. Mueller, 2022-11-30

*Annual Review of Gerontology and Geriatrics, Volume 10, 1990* Vincent J. Cristofalo, PhD, 1990-11-15 This volume presents a clear concise overview of the current state of knowledge about the biology of aging serving as both an invaluable graduate level text and a key reference for practicing professionals Over a dozen distinguished contributors probe the latest developments in our knowledge of why people age and how the process works These authoritative chapters are not just written for biologists but for gerontologists in general Marks the tenth anniversary of the Annual Review of Gerontology and Geriatrics

**Basic Anesthesia Review** Alaa Abd-Elsayed, 2024 Cricothyroid membrane This is the landmark used for a

cricothyrotomy procedure Located between the cricoid and thyroid cartilage tissue as shown in Figure 1 the membrane acts as a guide for establishing an airway for patients in emergency situations Palpate superiorly to the sternal notch until the prominence of the cricoid cartilage is identified and a subtle step off is felt just inferior to the thyroid cartilage
