Media And Culture With 2013 Update An Introduction To Mass Communication:

Media and Culture with 2013 Update Richard Campbell, Christopher R. Martin, Bettina Fabos, 2012-02-20 Today's media landscape is changing faster than ever and students are experiencing these developments firsthand. *Media Culture* pulls back the curtain on the media and shows students what all these new trends and developments really mean, giving students the deeper insight and context they need to become informed media critics. The 2013 Update also includes the must-cover events and trends students need to know to become informed media consumers and critics: from social media's influence on political events like the Occupy Wall Street movement and the Arab Spring revolutions, and what the News Corp. phone hacking scandal means for journalism, to the continued growth of television streaming and apps, and the advent of tablet-only newspapers. Read the preface.

Digital Intermediation Jonathon Hutchinson, 2023-05-31 Digital Intermediation offers a new framework for understanding content creation and distribution across automated media platforms, a new mediatization process. This book draws on empirical and theoretical research to carefully identify and describe a number of unseen digital infrastructures that contribute to a predictive media production process through technologies, institutions, and automation. Field data is drawn from several international sites including Los Angeles, San Francisco, Portland, London, Amsterdam, Munich, Berlin, Hamburg, Sydney, and Cartagena. By highlighting an increasingly automated content production and distribution process, this book responds to a number of regulatory debates on the societal impact of social media platforms. It highlights emerging areas of key importance that shape the production and distribution of social media content, including micro-platformization and digital first personalities. This book explains how technologies, institutions, and automation are used within agencies to increase exposure for the talent they manage while providing inside access to the processes and requirements of producers who create content for platform algorithms. Finally, it outlines user agency as a strategy for those who seek diversity in the information they access on automated social media content distribution platforms. The findings in this book provide key recommendations for policymakers working within digital media platforms and will be invaluable reading for students and academics interested in automated media environments.

Media & Culture with 2015 Update Richard Campbell, Christopher R. Martin, Bettina Fabos, 2014-03-31 The media are in a constant state of change, accelerated by the recent turn in digital technology. The new 2015 update of *Media and Culture* keeps up with the newest changes unfolding over YouTube, Twitter, Facebook, and other feeds, because the speed of today's media stories requires an understanding of the complex connections between media and our culture. The 2015 update includes the latest media developments and coverage of the political, economic, and cultural issues affecting our mass media and culture. But the authors go beyond the addition of current events and trends to focus on what these changes mean, extending the bridge between media history and the media right now.

Britishness and the Media. Evaluation of the role of news media in creating, reinforcing or challenging notions of Britishness and belonging Max Korbmacher, 2017-07-17. Essay from the year 2017 in the subject Communications, Public Relations, Advertising, Marketing, Social Media, grade B. University of Abertay Dundee, Social and Health Science Department, course News, Truth and Power, language English, abstract. This essay will present how the media defines Britishness by reporting about non-Britishness and stereotypes. Firstly, the terms media culture and Britishness will be described and discussed. Secondly, examples for stereotype creation and stereotype use in the media will be given and explained. Britishness is a flexible and dynamic concept. The understanding of Britishness differs; different definitions are applied. Britishness and understanding Britishness are influenced by several factors such as social structure, history, culture, and the media. Despite that, the concept is often used by politicians and the media as an exclusionary force. The media often present Britishness by showing everything that is supposed to be non-British. The following analysis will show that mainly immigrants, people of colour, POC, and Muslims are in the focus of the discourse.
