Media Control News As An Institution Of Power And Social Control:

Media Control Robert E. Gutsche, Jr.,2015-10-22 Media Control News as an Institution of Power and Social Control challenges traditional and even some radical perceptions of how the news works While it's clear that journalists don't operate objectively reporters don't just cover news but they make it Media Control goes a step further by arguing that the cultural institution of news approaches and presents everyday information from particular and dominant cultural positions that benefit the power elite From analysing how the press operate as police agents by conducting surveillance and instituting social order through its coverage of crime and police action to bolstering private business and neoliberal principles by covering the news through notions of boosterism Media Control presents the news through a cultural lens Robert E Gutsche Jr introduces or advances readers applications of critical race theory and cultural studies scholarship to explore cultural meanings within news coverage of police action the criminal justice system and embedding into the news democratic values that are later used by the power elite to oppress and repress portions of the citizenry Media Control helps the reader explicate how the power elite use the press and the veil of the Fourth Estate to further white ideologies and American Imperialism

Humanising Critical Journalistic Translation Studies Ali Jalalian Daghighe,Pei Soo Ang,2025-07-31 Ali Jalalian Daghighe and Pei Soo Ang's book provides new insights into the relationships between translation journalism ideology and power via a humanising approach Carving out a niche within Journalistic Translation Studies the book introduces and expands on Critical Journalistic Translation Studies CJTS The authors critically evaluate the state of the art while advocating for humanising research by focusing on the experiences of both translators and readers Using the Chinese journalistic translation landscape as a case study the book investigates the socio political and socio cognitive dimensions of journalistic translation Through applications of sociological cognitive and critical discourse approaches it sheds light on the working conditions of news translators their cognitive and emotional experiences the influence of power and ideology on the translation process the effects of ideological manipulation on translated news texts and the subsequent impact of such news on audience perceptions and emotions By opening fresh methodological pathways not only does this book illuminate the Chinese journalistic translation landscape but it also opens new avenues in CJTS This book is an indispensable resource for academics postgraduate students and researchers in Translation Studies Media Studies and Journalism Studies offering a transformative focus on humanising CJTS

Journalism Tim P. Vos,2018-05-22 This volume sets out the state of the art in the discipline of journalism at a time in which the practice and profession of journalism is in serious flux While journalism is still anchored to its history change is infecting the field The profession and the scholars who study it are reconceptualizing what journalism is in a time when journalists no longer monopolize the means for spreading the news Here journalism is explored as a social practice as an institution and as memory The roles epistemologies and ethics of the field are evolving With this in mind the volume revisits classic theories of journalism such as gatekeeping and agenda setting but also opens up

new avenues of theorizing by broadening the scope of inquiry into an expanded journalism ecology which now includes citizen journalism documentaries and lifestyle journalism and by tapping the insights of other disciplines such as geography economics and psychology The volume is a go to map of the field for students and scholars highlighting emerging issues enduring themes revitalized theories and fresh conceptualizations of journalism **Where Ideas Go to Die** Michael McDevitt (Professor of journalism),2020 Ideas die at the hands of journalists This is the controversial thesis offered by Michael McDevitt in a sweeping examination of anti intellectualism in American journalism A murky presence anti intellectualism is not acknowledged by reporters and editors It is not easily measured by scholars as it entails opportunities not taken context not provided ideas not examined Where Ideas Go to Die will be the first book to document how journalism polices intellect at a time when thoughtful examination of our society s news media is arguably more important than ever Through analysis of media encounters with dissent since 9 11 McDevitt argues that journalism engages in a form of social control routinely suppressing ideas that might offend audiences McDevitt is not arguing that journalists are consciously or purposely controlling ideas but rather that resentment of intellectuals and suspicion of intellect are latent in journalism and that such sentiment manifests in the stories journalists choose to tell or not to tell In their commodification of knowledge journalists will for example clarify ideas to distill deviance dismiss nuance as untranslatable and funnel productive ideas into static partisan binaries Anti intellectualism is not unique to American media Yet McDevitt argues that it is intertwined with the nation s cultural history and consequently baked into the professional training that occurs in classrooms and newsrooms He offers both a critique of our nation s media system and a way forward to a media landscape in which journalists recognize the prevalence of anti intellectualism and take steps to avoid it and in which journalism is considered an intellectual profession

The Future of the Presidency, Journalism, and Democracy Robert E. Gutsche, Jr.,2022-04-19 This volume examines the effects of Donald Trump s presidency on journalistic practices rhetoric and discourses Rooted in critical theory and cultural studies it asks what life may be like without Trump not only for journalism but also for American society more broadly The book places perspectives and tensions around the Trump presidency in one spot focusing on the underlying ideological forces in tensions around media trust Trumpism and the role of journalism in it all It explores how journalists dealt with racist rhetoric from the White House relationships between the Office of the President and social media companies citizens and journalists themselves while questioning whether journalism has learned the right lessons for the future More importantly chapters on liberal media bias the First 100 Days of the Biden Presidency gender and race and how journalists should adopt measures to reduce harm hint as to where politics and journalism may go next Reshaping the scholarly and public discourse about where we are headed in terms of the presidency and publics social media and journalism this book will be an important resource for scholars and graduate students of journalism media studies communication studies political science race and ethnic studies and sociology **The Media Essays** David Demers,2003 Many scholars and citizens argue

that global mass media are institutions that help political and economic elites around the world achieve their goals often to the detriment of the less powerful and nonmainstream groups This book of essays supports that proposition but also shows that local mass media like the family owned Spokesman Review in Spokane Wash perform the same function for the communities they serve In other words all mainstream mass media perform a social control function for the communities or nations they serve The two dozen essays in this book are designed to be easy to read and many illustrate the social control function using real world examples Book jacket [Handbook of Research on Deception, Fake News, and Misinformation Online](#) Chiluwa, Innocent E., Samoilenco, Sergei A., 2019-06-28 The growing amount of false and misleading information on the internet has generated new concerns and quests for research regarding the study of deception and deception detection Innovative methods that involve catching these fraudulent scams are constantly being perfected but more material addressing these concerns is needed The Handbook of Research on Deception Fake News and Misinformation Online provides broad perspectives practices and case studies on online deception It also offers deception detection methods on how to address the challenges of the various aspects of deceptive online communication and cyber fraud While highlighting topics such as behavior analysis cyber terrorism and network security this publication explores various aspects of deceptive behavior and deceptive communication on social media as well as new methods examining the concepts of fake news and misinformation character assassination and political deception This book is ideally designed for academicians students researchers media specialists and professionals involved in media and communications cyber security psychology forensic linguistics and information technology [The Press and Foreign Policy](#) Osman Mohammed Araby, 1990

The Trump Presidency, Journalism, and Democracy Robert E. Gutsche Jr., 2018-01-19 This book examines the disruptive nature of Trump news both the news his administration makes and the coverage of it related to dominant paradigms and ideologies of U S journalism By relying on conceptualizations of media memory and othering through news coverage that enhances socio conservative positions on issues such as immigration the book positions this moment in a time of contestation Contributors ranging from scholars professionals and media critics operate in unison to analyze today s interconnected challenges to traditional practices within media spheres posed by Trump news The outcomes should resonate with citizens who rely on journalism for civic engagement and who are active in social change Chapters 6 7 and 11 of this book are freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license here <https://www.taylorfrancis.com/books/edit/10/4324/9781315142326/trump-presidency-journalism-democracy-robert-gutsche-context-ubx-refId/8cc35100/2b4d/4a73/bbff/0ab9186212de>

Political Communication in Action David L. Paletz, 1996 On political communication [Mass Media and Social Change](#) Elihu Katz, Tamás Szecskő, 1981 [Women's Resistance in Global Context](#) Victoria E. Collins, 2025-12-26 This book provides a critically informed and interdisciplinary global examination of the instrumental role of women as resistance actors both historically and today Attention is given to the long

and global histories that reveal systemic and structural oppression suffered by women while highlighting that they have been and continue to be an important force for organizing for social change. Whether through the employment of formal or informal strategies of resistance such as acts of dissent activism pacifism and collective action this book recognizes and highlights that women have repeatedly stood in the face of social political and cultural violence in ways that have gone unrecognized. Drawing heavily from existing feminist thought especially those feminist voices that exist on the disciplinary margins case studies are used to examine women's strategic resistance acts. Cases include women's resistance to the Taliban in Afghanistan, Chile's *un violador en tu camino* a rapist in your path, the censoring of feminist activism in China, Korea's 4B movement, Pussy Riot in Russia, Turkey's International Women's Day, the Women's Social and Political Union in the United Kingdom and the MeToo movement, *SolidarityIsForWhiteWomen* as well as the freedom songs of the Civil Rights era from the United States. Careful consideration is given to the role of the oppressive patriarchal state recognizing that many resistance actors and movements operate within a global order that enforces colonial carceral policies and prioritizes hetero patriarchal Western ideals. The book includes chapters on the broad history of women's resistance movements, strategies of nonviolent and violent resistance, state and feminist backlash, the dominance of white feminism in resistance development and philanthropic spaces, media both traditional and digital and activism. This is essential reading for scholars and students of criminology, victimology, feminist and gender studies, sociology and international relations studies who are interested in the oft neglected role of women's resistance.

Visualizing Deviance Richard V. Ericson, Patricia M. Baranek, Janet B. L. Chan, 1987 **Controlling Police Corruption** Lawrence William Sherman, 1976 *The Media Society* Everette E. Dennis, 1978 *Communication Theories* Werner Joseph Severin, James W. Tankard, 2001 This comprehensive and readable text applies communication theories to the mass media with an abundance of current examples from journalism, broadcasting, advertising and public relations to make concepts clear to students. The new edition of *Communication Theories* addresses the ongoing changes in the mass communication field and the new developments in mass communication theory that are occurring as we move into the new millennium.

Mainstream and Critical Social Theory: Research programs and current controversies Jeffrey C. Alexander, 2001 **Mapping the Social Landscape** Susan J. Ferguson, 2002 Drawing from a wide selection of classic and contemporary works this best selling reader includes 56 readings that represent a plurality of voices and views within sociology.

Journalism Monographs, 1966 *Global Media* David Demers, 2002 The completely updated edition of this book supplements what communications professionals learn about mass communication by providing a gender perspective that is also informed by the intersections of race, class and sexual orientation. The goal is to challenge future print and broadcast journalists, reporters, public relations practitioners, copywriters, producers and other professionals to think differently about their own communication contributions to society.
