Protest Cultures Kathrin Fahlenbrach,Martin Klimke,Joachim Scharloth,2016-03-01 Protest is a ubiquitous and richly varied social phenomenon one that finds expression not only in modern social movements and political organizations but also in grassroots initiatives individual action and creative works It constitutes a distinct cultural domain one whose symbolic content is regularly deployed by media and advertisers among other actors Yet within social movement scholarship such cultural considerations have been comparatively neglected Protest Cultures A Companion dramatically expands the analytical perspective on protest beyond its political and sociological aspects It combines cutting edge synthetic essays with concise accessible case studies on a remarkable array of protest cultures outlining key literature and future lines of inquiry

Mediated Ideologies: Nordic Views on the History of the Press and Media Cultures Jukka Kortti,Heidi Kurvinen,2024-07-16 Ideologies have not been a focus of interest in the field of humanities and social sciences in recent decades but rethinking the power of ideologies in the media sphere has recently returned to the scholarly discussion The compilation book Mediated Ideologies Nordic Views on the History of the Press and Media Cultures participates in this by providing selected yet justified approaches to media history from the point of view of ideological uses of media in the Nordic region In this book the role of media comprising both popular media and news journalism as a forum for ideologies and their circulation will be analyzed by focusing on the Nordic region The perceived similarities in the media systems of the Nordic countries constitute a perfect extent for a regional media history against not only a European but also a global backdrop This does not mean that there have not been many national differences The book does not provide a chronological narrative of Nordic media history Still the ideology of media is approached not only from the standpoints of different media forms film television newspapers magazines and periodicals but also from several historical periods from the mid 19th century to the late 20th century The chapters show the multidimensional role that the media has in transmitting ideologies to their audiences and the public sphere They also demonstrate that analyzing the role of different ideologies such as modernization nationalism solidarity feminism and peace movement in media history provides wider perspectives in understanding past and present media landscapes and people s mediated experiences that are fostered by them Mediated Ideologies Nordic Views on the History of the Press and Media Cultures can be used both as a reference book and as a classroom adaption in the field of media communication and history studies *The Oxford Handbook of Social Movements* Donatella Della Porta,Mario Diani,2015 The Oxford Handbook of Social Movements is an innovative volume that presents a comprehensive exploration of social movement studies mapping the field and expanding it to examine the recent developments in cognate areas of studies within and beyond sociology and political science This volume brings together the most distinguished social and political scientists working in this field each writing thought provoking essays in their area of expertise and facilitates conversations between classic social movement agenda and lines of research The Oxford Handbook of Social Movements discusses core

theoretical perspectives recent contributions from the field and how patterns of macro social change may affect social movements as well as suggesting what contributions social movement studies can give to other research areas in various disciplines **Media and Revolt** Kathrin Fahlenbrach,Erling Sivertsen,Rolf Werenskjold,2014-02-01 In what ways have social movements attracted the attention of the mass media since the sixties How have activists influenced public attention via visual symbols images and protest performances in that period And how do mass media cover and frame specific protest issues Drawing on contributions from media scholars historians and sociologists this volume explores the dynamic interplay between social movements activists and mass media from the 1960s to the present It introduces the most relevant theoretical approaches to such issues and offers a variety of case studies ranging from print media film and television to Internet and social media

Diem's Final Failure Philip E. Catton,2002 Catton treats the Diem government on its own terms rather than as an appendage of American policy Focusing on the decade from Dien Bien Phu to Diem s assassination in 1963 he examines the Vietnamese leader s nation building and reform efforts particularly his Strategic Hamlet Program which sought to separate guerrilla insurgents from the peasantry and build grassroots support for his regime Catton s evaluation of the collapse of that program offers fresh insights into both Diem s limitations as a leader and the ideological and organizational weaknesses of his government while his assessment of the evolution of Washington s relations with Saigon provides new insight into America s growing involvement in the Vietnamese civil war
