Peace of Mind for Your Aging Parents Kenneth O. Doyle Ph.D.,Larry K. Houk JD,2018-06-21 Explains the most effective ways to discuss the legal and financial responsibilities that come with the end of life and tools for managing them such as wills trusts estate planning and cash management in the context of financial psychology Dying is complicated It presents myriad challenges at a time when people are least prepared to deal with complexity Typically aging people turn to their adult children and grandchildren their caregivers and their professional advisors to guide them in their final years This book is aimed directly at the children and grandchildren of aging parents to prepare them for meaningful conversations with their parents and among themselves It gives them the tools they need to communicate knowledgeably with caregivers and professional advisors and to make important decisions with or on behalf of those who depend on them The authors provide legal and financial tools and techniques including wills and trusts cash management and investment planning approaching each from both a financial and a psychological perspective They

recognize that some of the challenges that people face during their last few years of life cannot be controlled and describe not only what these tools and techniques can do but also what they can't. Those that cannot be controlled however can still be managed and the authors explain with clarity and compassion how to deal with them through psychological and spiritual engagement

Essentials for Nursing Practice - E-Book Patricia A. Potter, Anne G. Perry, Patricia A. Stockert, Amy

Hall, 2018-03-12 Get a solid foundation in essential nursing principles, concepts and skills. *Essentials for Nursing Practice* 9th Edition combines everything you need from your fundamentals course and streamlines it into a format that's perfect for busy nursing students. The ninth edition retains many classic features including chapter case studies, procedural guidelines and special considerations for various age groups along with new content including a chapter on Complementary and Alternative Therapies, interactive clinical case studies on Evolve, a new Reflective Learning section and QSEN activities to encourage active learning. Thoroughly reviewed by nursing clinical experts and educators, this new edition ensures you learn nursing Essentials with the most accurate, up-to-date and easy-to-understand book on the market. Progressive case studies are introduced at the beginning of the chapter and are then used to tie together the care plan, concept map and clinical decision making exercises. Focused Patient Assessment tables include actual questions to help you learn how to effectively phrase questions to patients as well as target physical assessment techniques. Nursing skills at the end of each chapter feature full bleed coloring on the edge of the page to make them easy to locate. Safety guidelines for nursing skills sections precede each skills section to help you focus on safe and effective skills performance. Detailed care plans in the text and on Evolve demonstrate the application of the 5 step nursing process to individual patient problems to help you understand how a plan is developed and how to evaluate care. Unexpected outcomes and related interventions for skills alert you to possible problems and appropriate nursing action. Patient Teaching boxes help you plan effective teaching by first identifying an outcome then developing strategies on how to teach and finally implementing measures to evaluate learning. Care of the Older Adult boxes highlight key aspects of nursing assessment and care for this growing population. Key points neatly summarize the most important content for each chapter to help you review and evaluate learning. Evidence Based Practice boxes include a PICO question summary of the results of a research study and a brief description of how the study has affected nursing practice in every chapter. Patient Centered Care boxes address racial and ethnic diversity along with the cultural differences that impact socioeconomic status, values, geography and religion. 65 Skills and procedural guidelines provide clear, step-by-step instructions for providing safe nursing care. The 5 step nursing process provides a consistent framework for clinical chapters. Concept maps visually demonstrate planning care for patients with multiple diagnoses. NOC outcomes, NIC interventions and NANDA diagnoses are incorporated in care plans to reflect the standard used by institutions nationwide.
