Mens Health Cheap 2025:

Textbook of Men's Health and Aging, Second Edition Bruno Lunenfeld,Louis J. G. Gooren,Alvaro Morales,John Morley,2007-12-20 The first edition of Textbook of Men's Health did much to establish and define the scope of the emerging subspecialty of aging men's health. This revised and updated edition with new sections on basic sciences and sexual dysfunction has a small but significant change of approach reflected in the new title. The central mission of the new edition

Youth, Masculinity and the Labour Market James Kartal Gürgeç,2026-02-13 This book examines young men's precarious education to employment transitions as they navigate educational, occupational and emotional challenges in the shadow of deindustrialisation and austerity. Using a mixed methods approach, the author draws on survey and interview data to explore young men's perceptions and experiences of employment, unemployment, education and training in two post-industrial British cities. The book analyses how structural inequalities, fragmented labour markets, biased education systems and punitive welfare regimes shape uncertain futures. With education emerging as a risky gamble, apprenticeships desired but underfunded and unemployment often experienced as both stigma and moral injury, the study foregrounds the emotional costs of precarity, shame, anxiety and resilience and reveals a fractured yet enduring agency among young men facing economic abandonment and processes of cultural misrecognition in post-industrial contexts. An interplay of material and affective precarity in youth education to employment transitions, this book will appeal to scholars and students of sociology, social policy, youth studies, labour market studies and masculinities. It will also be of value to professionals engaged with UK welfare, skills and labour market policy.
