TIPS FOR MEN

Everyday
Health Tips
Men Should
Know

Sleep Well

Adults need between 7-9 hours of sleep.

Insufficient sleep is associated with a number of **chronic diseases** and conditions, such as diabetes, cardiovascular disease, obesity, and depression.

Move More

Adults need at least 2½ hours of moderate-intensity aerobic activity every week.

Spread your jogging or gym activity out during the week, breaking it into smaller amounts of time rather than doing it all in one day.

Drink Water

Getting enough water every day is important for your health.

Water helps keep your temperature normal, lubricates and cushions joints, protects your spinal cord and other sensitive tissues, and gets rid of wastes through urination, perspiration, and bowel movements. It also helps control calories.

Stay on Top of Your Game

See your doctor or nurse for checkups.

Certain diseases and conditions may not have symptoms, so checkups help identify issues early or before they can become a problem.

Pay attention to signs and symptoms such as chest pain, shortness of breath, excessive thirst, and problems with urination.

Tame Your Stress

The best ways to manage stress in hard times are through self-care.

Avoid drugs and alcohol. Stay connected and seek help. Stay active and most of all make sure you take care of yourself.

Toss Out Tobacco

It's never too late to quit.

Quitting smoking has immediate and long-term benefits. It improves your health and lowers your risk of heart disease, cancer, lung disease, and other smoking-related illnesses.

Eat to THRIVE

Getting enough nutrition is crucial.

Focus on nutrients rather than calories. Fruits and vegetables have many vitamins and minerals that may help protect you from chronic diseases.

Enjoy Yourself

Participate in fun activities you enjoy **every day**, like hiking, biking, sports, relaxing, listening to music, and seeing friends and family. Look forward to each and every day!
