I. Lincoln Adams,2015-07-20 Excerpt from In Nature's Image Chapters on Pictorial Photography The reception of my preceding book entitled Sunlight and Shadow was so cordial a second edition being called for within two months of the publication of the first I have ventured to think that perhaps another volume similar to it but supplementing its predecessor by leading the reader a little farther along the pleasant paths of pictorial photography might not be unwelcomed I have been the more induced to undertake the preparation of the present book by the recollection that its companion was principally written and illustrated from the standpoint of the landscape or out of door subject and thereby rather subordinated the more difficult perhaps but also more interesting as well as more advanced work of figure composition portraiture and kindred subjects I have therefore endeavored in the chapters which follow and by the photographs which I have selected to illustrate them to supplement the instruction of the previous book and to complete the collection of pictorial examples which were chosen to illustrate it About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
