The Stock Market Reaction to Presidential Tweets in the Case of the US-China Trade War Max Luca Wiegand,2020-01-09 Bachelor Thesis from the year 2019 in the subject Business economics Banking Stock Exchanges Insurance Accounting grade 1 3 University of Frankfurt Main language English abstract In times of an increasingly digitalized world behavioral changes in society do not spare high ranking politicians and decision makers In some cases those changes in behavior can have unforeseen yet considerable consequences By making use of the renowned event study methodology this paper scrutinizes the impact of acting U S president Donald Trump s Twitter activity on international stock markets In particular a select set of ten short messages posted in the context of the present US China trade dispute is analyzed with regard to the U S American S P 500 the Chinese Hang Seng Index HSI and the German DAX Highly significant market reactions both positive and negative are found for the HSI and the examined markets aggregate while Trump s native market showed the least responsiveness to his tweets Apart from that the obtained results suggest a fairly rapid processing of new information and thus adjustment of prices Ever since Donald Trump s official inaugural address as the 45th president of the United States of America in January 2017 he has been cherishing a very polarizing and distinct way of leading the world s largest economy compared to his more recent predecessors That leadership style is not least characterized by his preferred yet considering his position rather uncommon way of communicating to the outside world namely his extensive use of microblogging service Twitter for presidential announcements and commentaries of any nature Amongst others a particularly high activity can be observed in conjunction with the rising political and economic tensions between the United States and China that have been intensifying over Trump s course of presidency The dispute between the two economic superpowers it comprises various topics such as the United States massive and long standing trade deficit and alleged intellectual property theft ultimately lead to the imposition of a series of mutual tariffs worth hundreds of billions of U S dollars And while Trump regularly keeps his followers updated about his thoughts claims and the statuses of trade negotiations stock markets around the globe seem to react heavily to the developments of what is referred to as the US China trade war The question arises whether those unscheduled and seemingly impulsive short messages can be a causal explanation for recent stock market movements

The Host in the Machine Angela Thomas-Jones,2010-07-27 This text tackles online social networks by navigating these systems from the

birth to the death of the digital self The author begins by examining the creation of a virtual identity in online networks popularized by websites such as Facebook and Myspace The book subsequently explores how the social self is intrinsic to how social cultural and professional relationships are discovered forged and maintained The text journeys through the popular criticisms of social networking such as employee time wasting bullying stalking the alleged links between social networks and suicide and the decline of a user s public image The dissonance between the performance of the virtual and non virtual selves and the offline issues that can ensue are contextualized by the social nature of these online networks The discussion of this digital life ends by addressing the intricacies of becoming web dead which explores how a user removes their identity with finality from social networks and the entire web
