Global Sustainable Practices in Gastronomic Tourism Rana, Varinder Singh, Raina, Ashish, Bathla, Gaurav, 2024-12-02
Developing sustainable practices in gastronomic tourism is essential for creating a responsible and impactful travel experience. As travelers become conscious of their environmental and social impact, the culinary tourism sector prioritizes sustainability at every stage. This includes promoting local ingredients, supporting small-scale producers, and minimizing food waste while also celebrating cultural heritage through authentic culinary experiences. Gastronomic tourism enhances the visitor experience while contributing to the preservation of local ecosystems and communities. Further research into gastronomic tourism is necessary to promote multi-stakeholder cooperation between local communities, companies, NGOs, and governments for improved sustainability of culinary tourism. *Global Sustainable Practices in Gastronomic Tourism* explores sustainability principles in relation to culinary tourism, including its effects on the environment, society, and economy. It examines how sustainable tourism practices incorporate gastronomic heritage, emphasizing the value of maintaining regional food systems and culinary customs. This book covers topics such as conservation and preservation, social media, and waste management and is a useful resource for hospitality and tourism professionals, economists, environmental scientists, marketers, business owners, academicians, and researchers. *The Regional Travel Guide for Savai'i (Samoa)* YouGuide Ltd,

Sustainable Development and Resilience of Tourism Deepak Chhabra, Navin Atal, Alka Maheshwari, 2024-08-29. This volume examines progress in sustainable and resilient development of niche forms of tourism from a health and wellbeing perspective. It also aims to offer deep and innovative insights on the supporting role of non-pharmaceutical interventions to enhance resilience and wellbeing of visited and visiting communities. A comparative and critical discourse of the role of hard medicine is also offered from both a core and supplementary perspective, particularly from eudaimonic and physiologically restorative standpoints. Furthermore, indigenous non-pharmaceutical interventions and spiritual healing mechanisms are discussed in the context of their potential to facilitate long-term immunity and happiness. The book conceptually situates health as a fourth pillar of sustainability and examines its role in stimulating long-lasting transformations rooted in positive psychology, inner transformation, and sustainable consumption of organic products and services. It designs an evolving transformational Quality of Life paradigm that strengthens the foundations of health, wellbeing-based sustainable development initiatives, and resilience of tourism systems. The work will be of interest to academic, professional, and various public and private stakeholders of tourism such as
