El Uruguay que nos debemos Ricardo Pascale, 2023-12-01

Convergencia sociedad del conocimiento. Debemos sentirnos orgullosos de nuestro país entre otras cosas por su democracia y civilidad por el respeto a la ley y su baja corrupción. Empero no tenemos una buena relación con el futuro e ignorarlo es muy costoso. Al no poseer una clara estrategia de desarrollo a largo plazo divergimos por diferentes caminos. Nuestro PIB per cápita se alejó del de los países que fueron nuestros referentes. En 1950 el PIB de Uruguay per cápita era muy superior al de Alemania, Italia, España, Japón o Finlandia. Hoy es muy inferior al de esos países lo que implica menor bienestar y oportunidades, peor educación y salud, y los talentos emigran. Entre 1960 y 2019 Uruguay creció a un promedio anual del 2,18% mientras que los países más avanzados lo hicieron entre el 2,5 y 3,5% y más. Para alcanzar a los países más avanzados debemos crecer por los mismos que ellos. O sea converger. La pregunta que el libro responde con soluciones concretas usando un lenguaje norteamericano es: por qué divergimos y cuáles es la estrategia para converger. Con un enfoque fordiano y de commodities y escasas excepciones no convergeremos. El reto es dar un salto de productividad y genuina competitividad. Para converger este libro propone ingresar cuanto antes en una economía basada en el conocimiento y se tratan los elementos claves para ello como son educación, inserción internacional, ciencia, tecnología, respuesta creativa e innovación, transferencia de conocimiento e instituciones. La idea mediante esta profusa y linda reflexión es contribuir si es posible a una solución estimular a pensar en el problema y actuar para evitar atrasarnos más. Seguir en el camino actual no es aconsejable. Nos llevará a mayor divergencia a crecientes dificultades económicas y como sociedad. The STEP-BY-STEP GUIDE FOR OPENAI AND AZURE OPENAI AJIT DASH,
