Updates on Renal Replacement Therapy Henry H.L. Wu, 2024-01-31 This book provides an extensive review of the current topics of interest and updated practices of renal replacement therapy for both pediatric and adult populations. The chapters are authored by nephrologists and healthcare and other professionals from around the world. This book brings a multidisciplinary and multidimensional perspective to the current advances in renal replacement therapy. It also provides updated recommendations to assist with clinical decision making on whether a patient is suitable and indicated for renal replacement therapy across different clinical settings and contexts and strategies to optimize their holistic care when they are receiving treatment.

Machines, Mechanism and Robotics D N Badodkar, T A Dwarakanath, 2018-08-28 This book offers a collection of original peer reviewed contributions presented at the 3rd International and 18th National Conference on Machines and Mechanisms iNaCoMM organized by Division of Remote Handling. The contributions include carefully selected novel ideas on and approaches to design analysis, prototype development, assessment and surveys. Applications in machine and mechanism engineering, serial and parallel manipulators, power reactor engineering, autonomous vehicles engineering in medicine, image based data analytics, compliant mechanisms and safety mechanisms are covered. Further papers provide in depth analyses of data preparation, isolation and brain segmentation for focused visualization and robot based neurosurgery, new approaches to parallel mechanism based Master Slave manipulators, solutions to forward kinematic problems and surveys and optimizations based on historical and contemporary compliant mechanism based design. The spectrum of contributions on theory and practice reveals central trends and newer branches of research in connection with these topics.
