Judith Sills, 1987 Based on Sills 16 years of experience as a psychotherapist and a teacher A Fine Romance shows that becoming a couple is a matter of gradual unfolding in a series of predictable stages and offers a clear and useful map to this process *The Barbie Phenomenon, Volume 1* Jo Coghlan, Lisa J. Hackett, Huw Nolan, 2025-09-10 This book offers a comprehensive analysis of Barbie's role in shaping societal perceptions of identity gender race and sexuality It traces Barbie's journey from a post war American doll reflecting stereotypical ideals to a significant cultural icon whose image both reflects and influences complex contemporary discussions on identity By situating Barbie in her historical and social context this book explores how this iconic doll has navigated and at times challenged shifting societal norms Structured thematically

this book dedicates each chapter to specific aspects of Barbie's influence from her portrayal of femininity and body image to her evolving representations of race and sexuality. By examining Barbie's diverse career roles and responses to beauty standards, this book encourages readers to consider both the empowerment and the limitations embedded in her narrative. It also critically addresses efforts to diversify Barbie's image, questioning whether these initiatives genuinely engage with diverse communities or commodify inclusivity for commercial appeal. Aimed at scholars and students in fields such as gender studies, sociology, and cultural studies, this book draws from multidisciplinary insights to enhance the reader's understanding of Barbie's impact. Its rigorous theoretical framework and balanced perspective make it an essential resource for those interested in consumer culture, identity formation, and media representations. By engaging with Barbie's complex legacy, this book provides a timely and thought-provoking contribution to discussions about the intersections of identity, representation, and popular culture.

Romantic Androgyny

Diane Hoeveler, 1990. *Romantic Androgyny* is the first study to systematically apply the currents of French and Anglo-American feminist literary criticism to an analysis of the major poetry of the Romantic period. Diane Hoeveler argues that Romantic male poets self-consciously employed the feminine as Other and as an alternative source of value in order to engage in a fictional completion of their own psyches. Furthermore, a large proportion of the women in the poetry of the major Romantics cannot be understood apart from this radical metaphoric tradition of literary absorption. Because of the power of the feminine as Other, women in English Romantic poetry have been on the one hand idealized and on the other denigrated by critics in the field. Hoeveler attempts to correct the flaws of both views by placing the various images of women into a psychoanalytical and historical framework. All six canonical poets participated in one of their culture's dominant ideological fantasies: that imaginative creativity was possible for males only if they absorbed the feminine principle and thus became androgynous. *Romantic Androgyny* argues that the images of the symbolic woman were determined by the poets' adherence to the ideologies of both androgyny and the Eternal Feminine that permeated late eighteenth and early nineteenth-century England.

Epic Romance Colin Burrow, 1993. *Epic Romance* from Homer to Milton presents a comprehensive view of the epic tradition from Homer through Virgil, Ariosto, Tasso, Spenser, and the host of minor writers who helped create the idiom within which these writers worked. To the idiom within which these writers worked, the individual authors in historical context link to develop a powerful explanation of how and why the epic changed from Homer to Milton. Dr. Burrow shows how the romance hero, whose prime motives are love and pity, emerged from a sequence of reinterpretations of Homer which runs from Virgil's *Aeneid* and its medieval redactions to Ariosto's *Orlando Furioso*. Relating the emergence of the romance hero to the digressive, decentred form of romance, the author explores how later writers sought to control the digressive energies of the romance hero and to create a language and form of heroism more like those of classical epic. This analysis leads to a fresh account of the way in which Renaissance writers responded to and moved tentatively towards the writing of the past. Arguing

against the view that Ariosto Tasso Spenser and Milton were engaged in a battle for mastery over their predecessors Dr Burrow reveals how they transformed they received interpretations of past epic in order to draw closer to the narrative forms of their classical forebears
