Media Ethics and Global Justice in the Digital Age Clifford G. Christians,2019-03-21 Presents a new theory of media ethics that is explicitly international **Ethics for Digital Journalists** Lawrie Zion,David Craig,2014-08-27 The rapid growth

of online media has led to new complications in journalism ethics and practice. While traditional ethical principles may not fundamentally change when information is disseminated online, applying them across platforms has become more challenging as new kinds of interactions develop between journalists and audiences. In *Ethics for Digital Journalists* Lawrie Zion and David Craig draw together the international expertise and experience of journalists and scholars who have all been part of the process of shaping best practices in digital journalism. Drawing on contemporary events and controversies like the Boston Marathon bombing and the Arab Spring, the authors examine emerging best practices in everything from transparency and verification to aggregation, collaboration, live blogging, tweeting, and the challenges of digital narratives. At a time when questions of ethics and practice are challenged and subject to intense debate, this book is designed to provide students and practitioners with the insights and skills to realize their potential as professionals.

Doing Ethics in Media Jay Black, Chris Roberts, 2011-04-19

Doing Ethics in Media: Theories and Practical Applications is an accessible, comprehensive introduction to media ethics. Its theoretical framework and grounded discussions engage students to think clearly and systematically about dilemmas in the rapidly changing media environment. The 13 chapter text is organized around six decision-making questions—the 5Ws and H of media ethics. The questions encourage students to articulate the issues, apply codes, policies, or laws, consider the needs of stakeholders, sift and sort through conflicting values, integrate philosophic principles, and pose a test of publicity. Specifically, the questions ask: What's your problem? Why not follow the rules? Who wins, who loses? What's it worth? Who's whispering in your ear? How's your decision going to look? As they progress through the text, students are encouraged to resolve dozens of practical applications and increasingly complex case studies relating to journalism, new media, advertising, public relations, and entertainment. Other distinctive features include: Comprehensive materials on classic moral theory and current issues such as truth telling and deception, values, persuasion, and propaganda; privacy, diversity, and loyalty; A user-friendly approach that challenges students to think for themselves rather than imposing answers on them; Consistent connections between theories and the decision-making challenges posed in the practical applications and case studies; A companion website with online resources for students, including additional readings and chapter overviews, as well as instructor materials with a test bank, instructor's manual, sample syllabi, and more (www.routledge.com/textbooks/black); A second website with continuously updated examples, case studies, and student writing (www.doingmediaethics.com).

Doing Ethics in Media is aimed at undergraduates and graduate students studying media ethics in mass media, journalism, and media studies. It also serves students in rhetoric, popular culture, communication studies, and interdisciplinary social sciences.
