Routledge International Handbook of Wellbeing Arts Andrea Giraldez-Hayes, Mandy Seligman, Jolanta Burke, 2025-11-14
The Routledge International Handbook of Wellbeing Arts focuses on the research and practice of arts and everyday aesthetics through the lens of positive psychology. Drawing together international experts and interdisciplinary perspectives including culture, psychology, education, sociology, health, social work, or neuroscience, this ground-breaking book introduces a new concept of Wellbeing Arts, offering fresh insights and practical strategies for using creative expression to enhance wellbeing. Through an exploration of cutting-edge science, this volume explores how engaging with the arts and everyday aesthetics can cultivate strengths, foster positive emotions, promote meaningful relationships, facilitate engagement and achievement, help individuals to find meaning and purpose, and act as a transformative force. The first section provides the foundation for wellbeing arts and the integration of arts, everyday aesthetics, and positive psychology. The second section demystifies the idea that the arts are reserved for an elite and makes the case that the arts are for everyone. Section 3 presents a series of possibilities for integrating arts, everyday aesthetics, and positive psychology using various art forms and descriptions of successful programmes in different contexts. Finally, section 4 presents a series of chapters describing arts and wellbeing policies and projects. This is essential reading for academics and practitioners in positive psychology, arts, and culture, health, and mental health, social work, and education, as well as anyone seeking to tap into the power of the arts for a more fulfilling life.

Healthcare in Children's Media Naomi Lesley, Sarah Layzell, 2025-04-21
Contributions by Anna Bugajska, Dayna Campbell, Dallas Ducar, Sudeshna Shome, Ghosh Melanie Goss, Joseph Holloway, Jeremy Johnston, Manjushri Karthikeyan, Jenise Katalina, Sarah Layzell, Naomi Lesley, Anna Macdonald, Vanessa E. Martinez, Renuncio Nichole Mayweather, Banks Madison, Miner Dawn, Sardella Ayres, Farriba Schulz, Carrie Spencer, Antje Tannen, Valerie A. Ubbes, and B. J. Woodstein.
Healthcare in Children's Media, edited by Naomi Lesley and Sarah Layzell, is a collection of essays and interviews from scholars, activists, and practitioners grappling with crucial questions about representations of healthcare systems, both formal and informal, in children's media. The volume focuses on systems of healthcare rather than individual narratives of illness. It examines how children are socialized into knowledge about healthcare. Essays explore critiques of existing systems, embedded in children's literature, analyze how children's books might be used for health literacy education, and examine children's film and television for visions of alternative systems and solutions to ethical dilemmas. Contributors in *Healthcare in Children's Media* draw upon interdisciplinary approaches including disability studies, gender studies, public health, bibliotherapy, and posthumanism. Essays examine care systems in the US, the UK, Germany, India, and Iran, and also offer a breadth of historical perspective ranging from the turn of the twentieth century through our present times and into projections of future bioethical and posthuman dilemmas. This volume adds fresh
