*Navigating Environmental Attitudes* Thomas A. Heberlein, 2012-10-11 Solving environmental problems requires a scientific understanding of public attitudes Bringing together theory and practice *Navigating Environmental Attitudes* provides a realistic understanding of why and how attitudes matter when it comes to environmental problems and how by balancing natural with social science we can step back from false assumptions and unproductive frustrating programs to work toward fostering successful effective environmental action *Navigating Environmental Attitudes* Thomas A. Heberlein, 2012-09-24 Solving environmental problems requires a scientific understanding of public attitudes Bringing together theory and practice *Navigating Environmental Attitudes* provides a realistic understanding of why and how attitudes matter when it comes to environmental problems and how by balancing natural with social science we can step back from false assumptions and unproductive frustrating programs to work toward fostering successful effective environmental action

**The Living Environmental Education** Wei-Ta Fang, Arba'at Hassan, Ben A. LePage, 2022-09-29 This open access book is designed and written to bridge the gap on the critical issues identified in environmental education programs in Asian countries The world and its environments are changing rapidly and the public may have difficulty keeping up and understanding how these changes will affect our way of life The authors discuss various topics and case studies from an Asian perspective but the content messaging and lessons learned need not be limited to Asian cultures Each chapter provides a summary of the intensive research that has been performed on pro environmental behaviors the experience of people working in industry and at home and their philosophies that guide them in their daily lives We highlight humanity's potential to contribute to Sustainable Development Goals SDGs by understanding better the environmental psychology social inclusion and environmental sustainability and stewardship protection elements that contribute to responsible environmental citizenship The content of the chapters in this book includes a discussion of the crucial issues plans and evaluations for sustainability theories practices and actions with a proposed management structure for maximizing the cultural social and ecological diversity of Asian experiences compared to other theories and cultures internationally We intend that the data in this book will provide a comprehensive guide for students professors practitioners and entrepreneurs of environmental education and its related disciplines using case studies that demonstrate the relationship between the social and behavioral sciences and environmental leadership and sustainability

**Routledge Handbook of Ecocriticism and Environmental Communication** Scott Slovic, Swarnalatha Rangarajan, Vidya Sarveswaran, 2019-02-01 Ecocriticism and environmental communication studies have for many years co existed as parallel disciplines occasionally crossing paths but typically operating in separate academic spheres These fields are now rapidly converging and this handbook aims to reinforce the common concerns and methodologies of the sibling disciplines The Routledge Handbook of Ecocriticism and Environmental Communication charts the history of the relationship between ecocriticism and environmental communication studies while

also highlighting key new paradigms in information studies diverse examples of practical applications of environmental communication and textual analysis and the patterns and challenges of environmental communication in non Western societies Contributors to this book include literary film and religious studies scholars communication studies specialists environmental historians practicing journalists art critics linguists ethnographers sociologists literary theorists and others but all focus their discussions on key issues in textual representations of human nature relationships and on the challenges and possibilities of environmental communication The handbook is designed to map existing trends in both ecocriticism and environmental communication and to predict future directions This handbook will be an essential reference for teachers students and practitioners of environmental literature film journalism communication and rhetoric and well as the broader meta discipline of environmental humanities

**Handbook of Attitudes, Volume 2: Applications** Dolores Albarracin, Blair T. Johnson, 2018-10-10 Attitudes are evaluations of people places things and ideas They help us to navigate through a complex world They provide guidance for decisions about which products to buy how to travel to work or where to go on vacation They color our perceptions of others Carefully crafted interventions can change attitudes and behavior Yet attitudes beliefs and behavior are often formed and changed in casual social exchanges The mere perception that other people say rich people favor something may be sufficient to make another person favor it People s own actions also influence their attitudes such that they adjust to be more supportive of the actions People s belief systems even change to align with and support their preferences which at its extreme is a form of denial for which people lack awareness These two volumes of The Handbook of Attitudes provide authoritative critical surveys of theory and research about attitudes beliefs persuasion and behavior from key authors in these areas This second volume covers applications to measurement behavior prediction and interventions in the areas of cancer HIV substance use diet and exercise as well as in politics intergroup relations aggression migrations advertising accounting education and the environment

*Cultural Analysis and the Navigation of Complexity* Lisa Kaye Brandt, 2007-05-03 The complexities involved in social dilemmas and ecological troubles today challenge scientists to conduct analyses of cultural phenomena that push the boundaries of disciplines and blur the line between theory and practice Problems are not so much to be solved as they are to be explained predicted and navigated Luther P Gerlach Ph D Professor Emeritus of Anthropology at the University of Minnesota has exercised immense influence on social science policy and practice to accomplish these challenges Professor Gerlach is highly regarded within and beyond anthropology for two areas of outstanding research groundbreaking work on social movements and pioneering studies of local global environmental conflict i e the conflict between local social political and economic control versus global ecological and economic interdependence This volume s Preface traces Professor Gerlach s intellectual biography and the peer reviewed chapters indicate the far reaching impact he and his research continue to have on academic and applied science Topics cover theories and methods as well as timely case studies in Global climate policy Language and social movements Environmental and
