**Researching Subtitling Processes** Anke Radinger, 2025-07-31 Subtitling is almost as old as the motion picture itself. It is a very specific form of translation that goes well beyond the transferring of written texts given that the source text the film is a complex combination of spoken and written text together with dynamic images, music and sounds. But how does one read a film in order to translate it? In this volume, Anke Radinger investigates what happens in a subtitler's mind, especially in various working environments. An example of one of these conditions is the introduction of innovative assistive language tools such as AI-powered speech-to-text into traditional subtitling workflows. Using methods like eye tracking and keylogging, Radinger reviews computer or rather AI-assisted subtitling processes, practices and workflows while concentrating on aspects such as effort and quality. Her work is a valuable contribution to subtitling process research. SPR, a young and greatly under-researched subfield of audiovisual translation.

**Netflix Guide: the Never Wonder What to Watch Book** Bilal Zou, 2018-04-26 There should be a way to stop the frustration of not knowing what to watch. There has to be a good movie to watch. The movie and show recommendation website trusted by millions of users every year is out with the latest solution: a TV Guide style book for Netflix. On-demand services like Netflix put the burden of choice entirely on you, and it's not easy to cut down from the overwhelming choice of options. This book is a selection of exclusively good movies and shows, titles highly rated by both viewers on IMDb and critics on Rotten Tomatoes. Instead of always watching the latest thing that Netflix comes out with, this book gives you over 130 highly rated and often little-known alternatives, including the new stuff that's actually worthy of your attention. This book is meant to be as functional and as practical as possible. Its goal is to spread the word about the existence of a better way to interact with a service like Netflix. Get it or give it to a friend who is constantly complaining about not knowing what to watch. It's meant to be both a timely and timeless solution. It features both movies and shows that will expire and Originals that will never leave Netflix.

**Introducing Audiovisual Translation** Agnieszka Szarkowska, Anna Jankowska, 2024-09-30 This user-friendly textbook offers comprehensive insights into all facets of audiovisual translation and media localisation. Serving as a comprehensive guide spanning seven chapters, it begins by introducing audiovisual translation (AVT). It goes on to explore the historical backdrop and highlights the distinctions from traditional written text translation. The authors expertly navigate you through the primary AVT modalities: interlingual subtitling, dubbing, voice-over, subtitling for the deaf and hard of hearing, live subtitling, and audio description. A blend of theoretical concepts and practical, real-world examples in various languages ensures a seamless understanding of the fundamental principles of AVT. The book clearly guides you through the most important aspects of each type of AVT. Designed for those exploring various AVT forms, budding audiovisual translators, and those interested in contemporary AVT trends and research, this book is an invaluable resource for students of translation and linguistics and for educators in AVT across higher education and media localisation programmes.
