The Other Worldview Peter Jones, 2015-06-24 A must read for every concerned American and especially for every Christian who weeps at the graveside of his culture R C Sproul A cataclysmic change has occurred as our culture has shifted toward belief in Oneism Every religion and philosophy fits into one of two basic worldviews Oneism asserts that everything is essentially one while Twoism affirms an irreducible distinction between creation and Creator The Other Worldview exposes the pagan roots of Oneism traces its spread throughout Western culture and demonstrates its inability to save For bodily holiness and transformed thinking we depend entirely on one amazing thing the incredibly powerful message of the Gospel to a sinful world which is the ultimate expression and goal of Twoism The only hope is in Christ alone **The Way of Psychology** Joseph Anthony Narciso Z. Tiangco, 2008 **Economic Globalisation as Religious War** Michael McKinley, 2007-06-28 Using a critical theory approach to analyze the globalization of the world economy this provocative and topical new book presents economic globalization not as a recent development but rather as a familiar process that has occurred throughout history Michael McKinley argues that it is ultimately a self serving arbitrary and destructive imperial project that should be viewed as a religious war Awakening Earth Duane Elgin, 1993 Just as there are relatively distinct stages that characterize the development of an individual from infancy to early adulthood so too are there discernible stages in the development of our species as we move toward a planetary scale civilization Awakening Earth brings together views from science and spirituality East and West the practical and the visionary to present a compelling new picture of human evolution Based upon twenty years of research this book explores the human journey from the initial awakening of hunter gatherers roughly 35 000 years ago through the agrarian era and Industrial Revolution and then goes on to describe three additional stages of development essential for realizing our initial maturity as a global species civilization A disoriented world civilization faced with dwindling resources mounting pollution and exploding population is a recipe for ecological collapse and social anarchy It is imperative that the human family begin to make rapid and profound changes in how we live together on the Earth To accomplish this we must now ask ourselves fundamental questions Who are we What are we doing here Where are we going as a species Awakening Earth provides a catalyst for this conversation with its integrative vision and inspiring map of the journey toward a sustainable compassionate and creative future While not predicting a sudden new age of social enlightenment Awakening Earth does present the promising view that humanity is roughly halfway through seven major transformations in culture and consciousness required to build a planetary civilization that can endure into the deep future BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Единство И*
