Technology, Reading, and Language Arts Jerry Willis,Elizabeth C. Stephens,Kathryn I. Matthew,1996 Technology Reading and Language Arts explores ways in which preservice and inservice teachers can integrate technology into their reading instruction It is organized around the dominant approaches to literacy instruction links theory to practice in meaningful ways and covers types of software and electronic resources and their use in the classroom rather than describing hundreds of different programs This book embraces a solid conceptual framework to reading instruction and will be of particular interest to instructors who prefer constructivist whole language and language experience approaches to teaching reading However direct instruction approaches are also covered in two chapters **Brain Words** J. Richard Gentry, Gene P. Ouellette,2023-10-10 The past two decades have brought giant leaps in our understanding of how the brain works But these discoveries and all their exciting implications have yet to make their way into most classrooms In Brain Words How the Science of Reading Informs Teaching authors J Richard Gentry and Gene Ouellette bring their original research based framework of brain words dictionaries in the brain where students store and automatically access sounds spellings and meaning This book aims to fill the gap between the science of reading and classroom instruction by providing up to date knowledge about reading and neurological circuitry including evidence that spelling is at the core of the reading brain Brain Words will show how children s brains develop as they become readers and discover ways you can take concrete steps to promote this critical developmental passage including Incorporating tools to recognize what works what doesn t and why Practical classroom activities for daily teaching and student assessment Insights about what brain research tells us about whole language and phonics first movements Deepened understanding of dyslexia through the enhanced lens of brain science With the insights and strategies of Brain Words you can meet your students where they are and ensure they gain confidence as readers spellers and writers
