

# 5 reasons to get preventive health care

MyHealthfinder helps you **take good care** with recommendations for preventive services — like checkups, screenings, and vaccines.

1.

## It can save your life.

Preventive services like cancer screenings can find problems before you have symptoms — so you can tackle them while they're easier to treat.

2.

## It can stop you from getting sick.

Sometimes, preventive care can even keep health problems from developing altogether.

3.

## It can give you peace of mind.

Regular checkups give you the chance to share concerns and ask questions about your health — and to get the support you deserve.

4.

## It can save you money.

Most insurance plans cover preventive services, and there are free or low-cost options if you don't have insurance. Plus, finding problems early can help you avoid costly medical bills later.

5.

## It can help you be there — and feeling your best! — for the people that matter to you.

Because sometimes, taking care of yourself is the best way to care for the people you love.
