## ***Accounting Best Practices***

Steven M. Bragg,2007-04-18 Praise for Accounting Best Practices Fifth Edition For a comprehensive yet easy to read guide to fixing those all too common shortcomings in your accounting department look no further than this excellent book Steve Bragg provides hundreds of fixes many of them requiring surprisingly little time or cost while providing a handy guide to common implementation pitfalls I would recommend this invaluable book to anyone who is looking to enhance their existing processes

whether due to growth in their business compliance with Sarbanes Oxley or just as part of their ongoing improvement process Martyn Webster CPA Director of FinanceXenoPort Inc This book is critical to running an efficient and accurate accounting department The use of RFID technology to track documents is one of many valuable tools in this latest edition A required read for the demanding accounting manager s role Jason Charet CPA I ve used Steve Bragg s Accounting Best Practices books for years as a source of ideas for improvement Like the previous editions the Fifth Edition has a number of new actionable best practices as well as refinements of those ideas reported in previous editions The books are broad enough in their perspective so that nearly any organization could find ideas that could pay back the cost of the book many times over John Temmerman Controller Evangelical Lutheran Church in America What a great resource I have been in the accounting field for over twenty years and I was still able to gain insight into improving processes within my office Thanks for putting it all in one book Tina M Thomas CPA CTP Controller Goodman Company LLP     **Handling & Shipping** ,1978

**Carbon-Free Shipping and Shipping Carbon** Stephen Girvin,Vibe Ulfbeck,2024-08-22 This book explores the private law implementation of the new international and EU regulatory framework targeting decarbonisation in the shipping industry Compared with other sectors the shipping industry has traditionally been labelled a slow mover concerning the sustainability agenda However new regulatory measures on carbon reduction both internationally and in the EU require fundamentally new developments in the industry This book focuses on the goal of carbon reduction from a private law perspective and considers how the new regulatory framework can be implemented in the shipping industry This book studies existing contractual provisions in charterparties and bills of lading alongside new contractual model clauses designed to facilitate carbon reduction It considers how the new clauses should be interpreted whether they will transform traditional shipping contracts into more collaborative contracts and how they will interact with other clauses in the contract and with other contracts in the supply chain The contractual analysis is considered in context reflecting on enforcement issues such as Port State Control PSC the Poseidon Principles and climate change litigation The book also analyses the related topic of shipping contracts for carbon storage as a necessary means of meeting carbon reduction targets The book is intended to pave the way for understanding how core shipping contracts can work in this new context and the extent to which the new types of clauses will profoundly transform contracts It presents contributions by experienced and younger academics and practitioners from Asian European and Scandinavian legal systems     **Mastering WordPress** Edwin Cano,2024-11-27 Welcome to Mastering WordPress A Comprehensive Guide Whether you re looking to build your first website improve an existing one or delve deeper into WordPress development this book will help you unlock the full potential of this versatile and powerful platform WordPress is more than just a content management system CMS It s the engine behind millions of websites from personal blogs and portfolio sites to complex e commerce stores and enterprise level applications Since its humble beginnings as a blogging tool in 2003 WordPress has grown into the most popular website platform on the internet powering over 40% of all
