OIE/FAO International Scientific Conference on Avian

Influenza Alejandro Schudel, Michel Lombard, 2006. This monograph comprises the proceedings of the International Conference on Avian Influenza held in Paris, France, in April 2005. Discussed were new scientific discoveries in the domain of avian influenza (AI) with special emphasis on the highly pathogenic avian influenza (HPAI). It provides important up-to-date information on the virology, epidemiology, and molecular biology, as well as the history of episodes of avian influenza in different parts of the world and their consequences. The publication aims at making recommendations to compare and improve the international procedures and standards related to the identification, prevention, control, and elimination of AI epizootics as they are a threat to the livelihood of farmers, especially in developing countries, to public health, as well as to national economies. Chief veterinary officers, animal health regulatory officials, veterinarians, poultry raising associations, consumer associations, specialised journalists, and all those who need to understand and control AI episodes will benefit from reading this book.
