Gray, Siddharth Suri, 2019 A startling exposé of the invisible human workforce that powers the web and how to bring it out of the shadows Hidden beneath the surface of the internet a new stark reality is looming one that cuts to the very heart of our endless debates about the impact of AI Anthropologist Mary L Gray and computer scientist Siddharth Suri unveil how the services we use from companies like Amazon Google Microsoft and Uber can only function smoothly thanks to the judgment and experience of a vast human labor force that is kept deliberately concealed The people who do ghost work make the

internet seem smart They perform high tech on demand piecework flagging X rated content proofreading transcribing audio confirming identities captioning video and much more The shameful truth is that no labor laws protect them or even acknowledge their existence They often earn less than legal minimums for traditional work they have no health benefits and they can be fired at any time for any reason or for no reason at all An estimated 8 percent of Americans have worked in this ghost economy and that number is growing every day In this unprecedented investigation Gray and Suri make the case that robots will never completely eliminate ghost work and the unchecked quest for artificial intelligence could spark catastrophic work conditions if not stopped in its tracks Ultimately they show how this essential type of work can create opportunity rather than misery for those who do it Dust jacket *Trampled by Unicorns* Maelle Gavet, 2020-10-06 A Wall Street Journal Bestseller An insider's revealing and in depth examination of Big Tech's failure to keep its foundational promises and the steps the industry can take to course correct in order to make a positive impact on the world *Trampled by Unicorns* Big Tech's Empathy Problem and How to Fix It explores how technology has progressed humanity's most noble pursuits while also grappling with the origins of the industry's destructive empathy deficit and the practical measures Big Tech can take to self regulate and make it right again Author Ma lle Gavet examines the tendency for many of Big Tech's stars to stray from their user first ideals and make products that actually profoundly damage their customers and ultimately society Offering an account of the world of tech startups in the United States and Europe from Amazon Google and Facebook to Twitter Airbnb and Uber to name a few *Trampled by Unicorns* argues that the causes and consequences of Big Tech's failures originate from four main sources the Valley's cultural insularity the hyper growth business model the sector's stunning lack of diversity and a dangerous self sustaining ecosystem However the book is not just an account of how an industry came off the rails but also a passionate call to action on how to get it back on track Gavet a leading technology executive and former CEO of Ozon an executive vice president at Priceline Group and chief operating officer of Compass formulates a clear call to action for industry leaders board members employees and consumers users to drive the change necessary to create better more sustainable businesses and the steps Western governments are likely to take should tech leaders fail to do so Steps that include reformed tax codes reclassification of platforms as information companies new labor laws and algorithmic transparency and oversight *Trampled by Unicorns* exploration of the promise and dangers of technology is perfect for anyone with an interest in entrepreneurship tech and global commerce and a hope of technology's all empowering prospect An illuminating book full of insights *Trampled by Unicorns* describes a realistic path forward even as it uncovers and explains the errors of the past As Gavet puts it we don't need less tech we need more empathetic tech And how that crucial distinction can be achieved by the tech companies themselves driving change as governments actively pave the road ahead

The Venture Mindset Ilya Strebulaev, Alex Dang, 2024-05-23 FINANCIAL TIMES BUSINESS BOOK OF THE MONTH Full of powerful practical lessons on changing how we think and act Eric Schmidt former CEO and Chairman of Google Many principles mentioned in the book helped us build Zoom and they will help you as well Eric S Yuan founder and CEO Zoom Inspired by venture capitalists unique way of thinking *The Venture Mindset* offers a transformative playbook for delivering results in a rapidly changing

world from a top Stanford professor and a technology executive. Venture capitalists are known for their extraordinary ability to spot opportunities. They know how to identify emerging trends, how to bring new industries into being and when to hold them and when to fold. Their unique way of thinking has made them the force behind world-changing companies such as Amazon, Google, Moderna, SpaceX, and Zoom. Stanford Professor Ilya Strebulaev has devoted two decades to studying VCs' counterintuitive approaches to decision making and the reasons behind the successes and failures of corporate innovations. Alex Dang has witnessed up close how VCs' thinking and mechanisms can create successful businesses at companies like Amazon and McKinsey. Combining their insight and extensive experience, they present nine distinct principles that will help you make better decisions, transform your business, and achieve remarkable results no matter your industry. In *The Venture Mindset*, you'll learn one question VCs ask that will change the way you evaluate opportunities. Why you should encourage dissent and be wary of consensus. The number one killer of innovation in traditional corporate environments. Why it's crucial to learn when to pull the plug on initiatives. Why failure is not just an option but a necessity. Packed with entertaining stories and scientific precision, *The Venture Mindset* is a must-read for anyone who wants to be better equipped for the era of uncertainty when industry, company, and career can be disrupted overnight. *The Venture Mindset* will teach you more than how to simply survive. It'll teach you how to win big.
