Have you ever wondered about something and thought your parents or caregivers could help you learn more about it? Or are you just interested in science and want to learn more about how it works using simple everyday items from home? This book is going to be great for you! It's a simple explanation of 20 of the coolest science experiments to do from home using items that are usually found in an average household. There are a ton of things to learn from this book and the experiments are fun and will teach you something about science you probably didn't already know. Get ready to impress your teacher and classmates! Make sure that you have an adult help you with the experiments included in this book; grownups are great at helping you learn and will make sure that all of these experiments are done safely and correctly. Each of the activities can be done with items generally found in your home or can be purchased at a low cost at a local pharmacy or grocery store. They are all safe and non-toxic; however, proper safety measures should be taken to show children how it is essential always to be protected and prepared. This book covers experiments to learn about the following: Biology, Physics, Earth, Air and Gases, Water and Liquids, Color, Sound and Music, Art, Plants and Seeds, and much more.
