**AAPC** stands for the **American Academy of Professional Coders**.

Founded in 1988, its flagship certification, the **Certified Professional Coder** or **CPC exam**, is one of the industry-standard credentials for medical coders to gain a valuable – *and employable* – qualification.

The CPC medical coding certification exam is a proctored, 150-question and 5.5 hour national exam. With **70%** required to pass the exam, it's important to be well-prepared both in the nature of the exam and its contents.

Most students who appear for the exam find it **hard** to clear it in the first attempt. That's where you need study guides, medical coding classes and/or certification review

Look at what some students had to say after using our practice exams:

I just wanted to let you know that I was preparing for the CPC exam and took a practice exam and only made a 70%. I was somewhat skeptical of purchasing your strategies and practice in fear it would not help. Reluctantly I purchased your product a practice exam and the strategies to pass before sitting for the CPC exam. I received my results yesterday I MADE A 92! I used all of the strategies you recommended time management, highlighting, etc. which made all the difference in the world. Thank you so much Heather T. This is very good. I used your practice exam bundle and passed the first time. I also recommended this to others preparing for the test in our organization. They ordered and felt it was of great value. I especially appreciated the explanation for the answers which helped me learn while I corrected the test. When I took the practice test I set a timer for 5 hr 40 min and was able to complete in 3 hours with a score of 89%.
