*Warfare in the Global Middle Ages* David S. Bachrach,Bernard S. Bachrach,2025-09-30 War preparation for war and dealing with war s aftermath consumed the greater part of the surplus resources of societies around the globe throughout the pre modern period Military matters affected men women and children alike as direct participants in organized violence as the victims of conflicts or through broad based impositions on ostensibly civilian populations in cash kind and labor Warfare in the Global Middle Ages illuminates the organization and conduct of war as well as the impact of warfare on societies in Europe Asia Africa and the Americas across a long millennium spanning from the third century CE to the sixteenth century CE The volume is organized in eight chapters which address the current state of scholarship regarding warfare over this long period the source materials available to scholars to investigate the myriad questions related to this broad field and the institutions developed by societies to defend themselves and engage in wars of conquest military technology the logistics of war the education and training of military leaders and individual combatants as well as strategy military intelligence and diplomacy The authors argue that an analysis of these topics illuminates broad similarities among

polities across the globe the transmission of ideas and technologies on a regional and global level and also important differences in the ways that societies responded to similar challenges This work is intended broadly both for specialists in the history of warfare across the globe for an interested lay public as well as for use in the classroom **Journal of Medieval**

**Military History** Clifford J. Rogers,Kelly DeVries,John France,2012-09-20 Latest volume in the leading forum for debate on aspects of medieval warfare The tenth anniversary of the Journal includes pieces by some of the most distinguished scholars of military history including an analysis of tenth century Ottonian warfare on the eastern frontier of the Empire by David and Bernard Bachrach As ever the contributions cover a wide span both chronologically from an analysis of the careers of Justinian's generals in the sixth century to a study of intelligence gathering in the Guelders War at the start of the sixteenth and geographically from Michael Prestwich's transcription of excerpts from the Hagnaby chronicle describing Edward I's wars in Wales to a detailed treatment of the Ottoman Hungarian campaigns of 1442 Other papers address the battle of Rio Salado 1340 the nature of chivalric warfare as presented in the contemporary biography of le bon duc Louis de Bourbon 1337 1410 and the military content of the Lay of the Cid Contributors David Alan Parnell Bernard S Bachrach David Bachrach Francisco García Fitz Nicolás Agrait Steven Muhlberger John J Jefferson James P Ward Michael Prestwich *The Fighting Man* Peter Young,1981

Warfare, Crusade and Conquest in the Middle Ages John France,2023-04-21 This volume brings

together a series of articles by John France published over a span of more than forty years covering a number of aspects of the military and crusading history of the Middle Ages both in Europe and the Near East An interest in understanding how war worked and why informs a first group of articles ranging from Carolingian armies to the organisation of war in the 13th century The focus then turns to the Crusades the most ambitious conquests of the era with a set of studies on the First Crusade and others on the manner and conduct of warfare in the territories of the Latin East The volume also includes a major unpublished analysis co authored with Nicholas Morton of the problems faced by the local Islamic powers in the early Crusading period reminding us that an army is only as strong as its enemies permit and suggesting that the crusaders should be seen in this light

Weapons **Warfare in Medieval Europe c.400-c.1453** Bernard S. Bachrach,David S. Bachrach,2021-08-30 Warfare in Medieval Europe now in its second edition offers considerably more attention to the transition from the later Roman Empire to the early Middle Ages the composition of the armies of the opponents of the West and the experience of commanders and individual combatants on the battlefield This second revised and expanded edition provides a more in depth thematic discussion of the nature and conduct of war with an emphasis on its overall impact on society from the late Roman Empire to the end of the Hundred Years War The authors explore the origins of the institutions physical infrastructure and intellectual underpinnings of warfare with chapters on military topography military technology logistics combat and strategy Bernard and David Bachrach have also added a new chapter which provides two detailed campaign narratives that highlight the

themes treated throughout the text The geographical scope of the volume encompasses Latin Europe the Slavic World Scandinavia and the eastern Mediterranean with a particular focus on the conflict between Western Christianity and the Islamic Near East Written in an accessible and engaging way Warfare in Medieval Europe is the ideal resource for all students of the history of medieval warfare    **The Illustrated naval and military magazine** ,1886    Militaria ,1976

*Readers Comp to Military History Pa* ,2001 THE READER S COMPANION TO MILITARY HISTORY is the first major reference work on military history to represent a global perspective More than 150 distinguished military historians biographers and journalists contributed nearly 600 articles to this remarkable chronicle of warfare that combines compelling historical narrative with the latest in contemporary scholarship Here is essential information on major events and battles commanders weaponry and technology and strategy and tactics Other topics include courage discipline the effects of weather on warfare military justice the role of propaganda the evolution of uniforms psychological warfare and morale Filled with surprising anecdotes and little known facts THE READER S COMPANION TO MILITARY HISTORY    The Northern and Asiatic Defenses of Turkey Charles H. Woodman,1877    **Early medieval militarisation** Ellora Bennett,Guido M.

Berndt,Stefan Esders,Laury Sarti,2021-04-13 The societies of ancient Europe underwent a continual process of militarisation and this would come to be a defining characteristic of the early Middle Ages The process was neither linear nor mono causal but it affected society as a whole encompassing features like the lack of demarcation between the military and civil spheres of the population the significance attributed to weapons beyond their military function and the wide recognition of martial values Early medieval militarisation assembles twenty studies that use both written and archaeological evidence to explore the phenomenon of militarisation and its impact on the development of the societies of early medieval Europe The interdisciplinary investigations break new ground and will be essential reading for scholars and students of related fields as well as non specialists with an interest in early medieval history    *The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces* ,1896    *Journal of the Military Service Institution of the United States* ,1894    Military Encyclopedia Edward Samuel Farrow,1885    **American Dictionary and Cyclopedia** ,1896    Annual Reports of the Secretary of War United States.
