Handbook on the Economics of the Internet Johannes M. Bauer, Michael Latzer, 2016-05-27 The Internet is connecting an increasing number of individuals organizations and devices into global networks of information flows It is accelerating the dynamics of innovation in the digital economy affecting the nature and intensity of competition and enabling private companies governments and the non profit sector to develop new business models In this new ecosystem many of the theoretical assumptions and historical observations upon which economics rests are altered and need critical reassessment

From Networks to Netflix Derek Johnson, 2018-01-03 Even as the television industry experiences significant transformation and disruption in the face of streaming and online delivery the television channel itself persists If anything the television channel landscape has become more complex to navigate as viewers can now choose between broadcast cable streaming and premium services across a host of different platforms and devices *From Networks to Netflix* provides an authoritative answer to that navigational need helping students instructors and scholars understand these industrial changes through the lens of the channel Through examination of emerging services like Hulu and Amazon Prime Video investigation of YouTube channels and cable outlets like Freeform and Comedy Central and critiques of broadcast giants like ABC and PBS this book offers a concrete tangible means of exploring the foundations of a changing industry The Handmaid's Tale Janis

Goldie, Karen A. Ritzenhoff, 2019-06-06 *The Handmaid's Tale Teaching Dystopia Feminism and Resistance across Disciplines and Borders* offers an interdisciplinary analysis of how Margaret Atwood's *The Handmaid's Tale* as well as its film and television adaptations can be employed across different academic fields in high school college and university classrooms Scholars from a variety of disciplines and cultural contexts contribute to wide ranging analytical strategies ranging from religion and science to the role of journalism in democracy while still embracing gender studies in a broader methodological and theoretical framework The volume examines both the formal and stylistic ways in which Atwood's classic work and its adaptations can be brought to life in the classroom through different lenses and pedagogies Good Old-Fashioned Values

Melissa Vosen Callens, Olivia Vogt, 2024-07-24 Seth MacFarlane has made an immense mark on popular culture through both his live action and animated television series *Family Guy* *American Dad* *The Cleveland Show* and *The Orville* While MacFarlane has garnered a large legion of fans even those who do not personally watch *Family Guy* this longest running series will be quick to recognize images of Peter and Stewie Griffin a caricature of the clueless dads from sitcoms of yesteryear and an inexplicably queer coded evil baby genius respectively This book explores *Family Guy* and Seth MacFarlane's other animated series closely examining how the series uses satire and other strategies to construct specific ideas related to sex gender and family The authors argue that the series like many other television series contribute to our collective understanding of family and reinforce at times unfavorable gender stereotypes FCC Record United States.
