Nice Trolley Problem Mysteries Berkeley Lectures:

The Trolley Problem Mysteries Frances Myrna Kamm, Judith Jarvis Thomson, Thomas Hurka, Shelly Kagan, 2016 A rigorous treatment of a thought experiment that has become notorious within and outside of philosophy The Trolley Problem by one of the most influential moral philosophers alive today Suppose you can stop a trolley from killing five people but only by turning it onto a side track where it will kill one May you turn the trolley What if the only way to rescue the five is to topple a bystander in front of the trolley so that his body stops it but he dies May you use a device to stop the trolley that will kill a bystander as a side effect The Trolley Problem challenges us to explain and justify our different intuitive judgments about these and related cases and has spawned a huge literature F M Kamm's 2013 Tanner Lectures present some of her views on this notorious moral conundrum After providing a brief history of changing views of what the problem is about and attempts to solve it she focuses on two prominent issues Does who turns the trolley and how the harm is shifted affect the moral permissibility of acting The answers to these questions lead to general proposals about when we may and may not harm some to help others Three distinguished philosophers Judith Jarvis Thomson one of the originators of the trolley problem Thomas Hurka and Shelly Kagan then comment on Kamm's proposals She responds to each comment at length providing an exceptionally rich elaboration and defense of her views The Trolley Problem Mysteries is an invaluable resource not only to philosophers concerned about the Trolley Problem but to anyone worried about how we ought to act when we can lessen harm to some by harming others and how we can reach a decision about the question Rights and Their Limits F. M. Kamm, 2022 In this volume noted moral philosopher F M Kamm explores how rights and their limits are recognized in theories and in judgments about hypothetical and practical cases The author begins by considering moral status and its relation to rights and duties and next investigates the extent of the right not to be harmed by considering the costs morally required to avoid harming and offering a proposal for permissibly harming someone that allows for resisting the harm in the Trolley Problem Kamm further considers the relevance of the Trolley Problem for issues in applied ethics such as self driving cars The book concludes with an exploration of the significance of the right not to be harmed in a pandemic and for a morally correct policy on torture **The Electrical Journal**, 1906 **Western Electrician**, 1899 **Railroad Magazine**, 1955 The Electrician, 1906 **The Ladies' Home Journal**, 1951 **The Yale Alumni Weekly**, 1925 **Trains**, 1959 **Forthcoming Books** Rose Arny, 1990 **New York Times Saturday Review of Books and Art**, 1969 **New York Times Book Review and Magazine**, 1969
