Baye,Dennis W. Jansen,1995 Taking a modern approach to money and banking this text uses core microeconomic and macroeconomic concepts to explain the structure and behaviour of banks A microeconomic perspective focuses on the bank as a firm inviting students to view the behaviour of banks through for example the prism of supply and demand analysis and the economics of information and game theory Integrated international coverage aims to foster students appreciation of the global dimensions of money and banking *Courts, Regulators, and the Scrutiny of Economic Evidence* Despoina Mantzari,2022-09-01 *Courts Regulators and the Scrutiny of Economic Evidence* presents the first systematic examination of economic regulation and the crucial role of economic evidence in regulatory authorities and courts This book brings together strands of scholarship from law economics and political science to explore two key themes the influence of economic evidence on the discretionary assessments of economic regulators and the limits of judicial review of economic evidence supplemented with comparative examination of both UK and US systems In light of the challenges posed by economic evidence Mantzari argues the appropriate scope of judicial review in the era of regulatory economics and what the optimal institutional response to the pervasiveness of economic evidence in regulation should be Building on comparative institutional analysis this book rejects single factor explanations such as the individual knowledge of judges in favour of a richer set of macro and micro level factors that shape the relationships between courts and regulators Mantzari argues that the recipe for adjudicating economic evidence requires a balance in which a degree of epistemic diversity is introduced in courts and deference is accorded to regulatory agencies on grounds of institutional competency The book combines theoretical doctrinal comparative and empirical analysis and it is written to be accessible to lawyers economists judges regulators policymakers and political scientists **Competition Law in China and the EU** Xingyu Yan,2024-12-16 This book presents a comprehensive review of the Chinese and European responses to the abuse of market dominance with a focus on the impact of antitrust institutional dynamics on enforcement decisions It uses the methods of functional comparison and case analysis to investigate how theories of harm relating to specific types of abuse differ within and across competition law regimes due to institutional dynamics The Chinese and EU competition law regimes serve as excellent examples for this investigation because they have similar substantive laws on paper but vastly different institutional settings The book examines first individually and then comparatively how the distinct institutional dynamics in the Chinese and EU regimes shape the development of theories of harm This volume will appeal to competition law scholars students and practitioners seeking a more nuanced understanding of how competition law works in the EU and China It will also interest scholars trying to approach the Chinese legal system from an engaging rather than alienating standpoint **In Praise of Litigation** Alexandra D.
